County cannabis ordinance goes into effect Dec. 26

Retail and growing licenses will take longer

By JP CRUMRINE
 NEWS EDITOR

Initial applications for some cannabis business activities can be submitted to the Riverside County Planning Department on Dec. 26.

In October, the Board of Supervisors approved an ordinance establishing allowable and prohibited commercial cannabis uses within the unincorporated areas of the county. This also defined the land-use zones where these permitted uses may occur and the zones where they will be prohibited.

The ordinance sets development standards and operation criteria, and creates a permitting process and regulations for commercial cannabis operations.

A 60-day waiting period has to pass before the ordinance goes into effect on Wednesday, Dec. 26.

Starting that day, individuals can begin to submit applications to the Planning Department for four of the permitted cannabis uses: testing, manufacturing, distributing and wholesale

nurseries.

Applications for retail and cultivation uses will not be accepted yet. The county expects to begin this process in early January 2019. Prior to its commencement, the county will issue more information on the specifics of the retail and cultivation permit process.

As part of the ordinance's approval, the board also authorized an implementation plan for retail and cultivation uses. Applications for these uses will follow a separate process.

The county will seek and evaluate proposals for retail and cultivation purposes from interested parties. This proposal process requires interested applicants to pre-register before the Planning Department issues a Request for Proposals.

Information about the cannabis application process and requirements can be found at planning.rctlma.org/Home/Cannabis.aspx.

The ordinance and accompanying reports can be found at http://riversidecounty.ca.iqm2.com/Citizens/Detail_LegiFile.aspx?Frame=&MeetingID=1828&MediaPosition=5873.548&ID=8250&CssClass.

Idyllwild Water seeks new general manager

Hunt to remain on board

By JP CRUMRINE
 NEWS EDITOR

In a longish pre-holiday meeting last week, the directors of the Idyllwild Water District addressed several major issues. During the regular portion of the meeting, they adopted a water shortage contingency plan (see accompanying story), took a position on the district's role serving the Idyllwild Community Center, tabled the issue of rebates for water filters and intensified the search for a new general manager.

Major search for missing man

By JP CRUMRINE
 NEWS EDITOR

David Elliot Bradish, 80, has been missing since about 3:30 p.m. Monday. The Riverside County Sheriff's Department is conducting an extensive search to find him, more than 50 searchers were involved.

Bradish is a white male, 6 feet tall, 180 pounds, with gray hair and blue eyes, and was wearing a black

jacket, black denim pants, a black baseball cap and glasses.

He was last seen at was last seen in the 54500 block of North Circle Drive in Idyllwild.

The search continued Tuesday and included going door-to-door from where he was last seen seeking help or clues.

Monday night, searchers used a canine corps to try to find a trail to follow. A helicopter began circling

Idyllwild late Monday afternoon and used a search light after dark. Unfortunately, searchers did not locate Bradish by press time Tuesday afternoon.

The sheriff's press release reported, "Bradish suffers from stage-two Alzheimers. Bradish does not drive and, according to family members, his disappearance is out of character."

Recent fire calls relate to Cranston Fire

Months later, remnants can ignite

By JP CRUMRINE
NEWS EDITOR

Several times during the latest wind event, local fire departments were called out to Mountain Center. One of the calls was about midnight. Smoke was seen and it appeared that a fire was starting.

Upon arrival, firefighters discovered patches of wood and duff causing the smoke and heating up.

"These calls were actually for smoldering fires," wrote Charles Wentz, forester for the U.S. Forest Service's San Jacinto Ranger District. Essentially, these were remnants of the Cranston Fire in July and August.

Both Wentz and Gregg R. Bratcher, unit forester and division chief for Riverside County Fire Department, affirmed that this is not unusual within an area of a massive fire.

After the fire is first contained and then controlled, the clean-up efforts emphasize eliminating the threat that the fire may expand. Yet, there may be islands within the burned area that are not extinguished or simply smolder. Since they are surrounded by burn-scar surface, these pose little threat to grow.

On the Hill, because the duff is so deep after years of accumulating pine needles, leaves and other fuel debris, the duff will continue to burn slowly beneath the surface. Occasionally, roots retain heat and burn — rather smolder — for months.

The strong Santa Ana winds arrive and provide air and oxygen to these small hot spots and ignite new flames, which are visible above the surface.

"With the super-duff layer, it can burn

Shortly after 2 a.m. Tuesday, Nov. 13, Josh Whitney of Mountain Center placed a call about a vegetation fire on his McCall Park Road property. Multiple agencies responded quickly, including Idyllwild Fire Department, Riverside County Fire, U.S. Forest Service and Southern California Edison. The small spot fire appeared to be a remnant from the Cranston Fire in July. The Santa Ana winds ignited smoldering trees causing embers and ash to be cast in the air. Emergency resources extinguished the blaze promptly and no injuries were reported. PHOTO BY JENNY KIRCHNER

under the dirt as well as above," Bratcher stated. "Even with infrared, we can't detect the subsurface heat. Eventually, it will go out."

"My best guess is that these were areas of hold-over heat from the Cranston Fire that gained enough energy, due to low, single-digit relative humidity and high winds, and ignited," Wentz said in the email. "It is possible for something to remain hot for months, but conditions have to line up perfectly for a flare-up to occur. In the case of the McCall Park flare up, it was a combination of friction and very low relative humidity."

As an example, Bratcher referred to the direction to campers, when ready to depart, to stir the fire embers to ensure all are extinguished.

Some rain last week, more forecast this week

By JP CRUMRINE
NEWS EDITOR

Rain fell Wednesday night and very early Thanksgiving morning, the first measurable precipitation in a month.

The National Weather Service also is forecasting more rainfall this week. Snow is predicted to fall at the 10,000-foot elevation Wednesday night, and be from 5,500 to 6,500 feet Thursday afternoon, then 5,000 to 6,000 feet that evening. Accumulation is expected to be several inches above 5,500 feet and 6 inches above 7,000 feet.

The amount of rain last week seemed to increase from south to north. The U.S. Forest Service Keenwild Ranger Station recorded about 0.4 of an inch. In Idyllwild, about 0.46 inches of rain fell between 2:30 and 8:30 a.m. And at the Forest Service's Vista Grande Ranger Station, 0.48 inches

were recorded.

Total rainfall since July 1 is still significantly below the long-term average for rainfall from July through November. Keenwild has barely recorded 3 inches of rain. The average for these five months has been 5.8 inches.

Mt. San Jacinto Peak barely felt any rain. The recorded amount was 0.13 inches, which is one reason a brush fire near the Tram Station was able to burn about 19 acres Thanksgiving morning.

Incident Commander Tony Sandrini, of the U.S. National Park Service, led the units that contained and controlled the fire before it could spread over the ridges. Multiple units responded besides NPS, including Palm Springs City Fire Department, Cal Fire, the U.S. Bureau of Land Management and Riverside County Fire Department.

Learn about this winter's planned prescribed burns

Community meeting
Thursday, Nov. 29

By JP CRUMRINE
NEWS EDITOR

Fire officials have scheduled a community meeting at 6 p.m. Thursday, Nov. 29, at the Idyllwild Nature Center. Officials from various fire agencies will be present to discuss their plans for several pre-

scribed burns on the Hill during the winter.

The areas where the burns will occur are Stone Creek, Pine Cove, Thomas Mountain and Potrero, in the Pinyon area.

Federal representatives from the U.S. Forest Service and the U.S. Bureau of Land Management will be present, as well as officials from Cal Fire and California State Parks.

Post Office burglary creates bank account problems

By JP CRUMRINE
NEWS EDITOR

Last month, a burglary occurred at the Idyllwild Post Office, though postal officials would not elaborate about everything that may have been taken or even how it occurred.

But one of the victims, Barbara Maring, wrote to the Town Crier about how the incident has affected her and her husband.

They had written checks to three companies, including Verizon. Saturday evening, Oct. 20, they mailed the checks with the statements to the vendors. The envelopes were put into the outgoing slot inside the local Post Office.

A few weeks later, while her husband was reconciling the bank statement, he discovered a check for \$1,800 to someone they did not recognize. Working with Jeri Sue Haney, manager of the local BBVA branch, where the Marings had their account, they learned that their \$85 payment to Verizon had been changed to \$1,800 and Chase Bank in Hemet cashed it at the bank window.

Since then, she said, "We had to close our bank account, which meant setting up automatic deposits and payments with a new account. No small task. We are still waiting to be reimbursed by Chase Bank for our loss."

They have been told that all three envelopes that contained their checks were torn open and found at Lawler Lodge, north of Pine Cove.

No one has explained how the thief or thieves got into the Post Office, and how they selected what mail to steal.

Earlier this month, Sgt. Kenneth Reichle of the Riverside County Sheriff's Department advised anyone who may have mailed a check the weekend of Oct. 20 and 21 to verify that it has cleared their checking account.

If it has not, consider canceling payment and speaking to the bank about a new account. Missing checks would have both the account number and routing number, which could be used to access the account or make false charges.

JP Crumrine can be reached at jp@towncrier.com.

New BBVA ATM installed in bank building

By MARSHALL SMITH
STAFF REPORTER

A new ATM has been installed in the Idyllwild branch BBVA Compass bank building in Idyllwild, replacing the Bank of America ATM previously in the same location.

BBVA Branch Manager Jeri Sue Haney confirmed the new ATM was installed during the first week of November. "It makes it so much easier for us," she said. "We can balance it from here, in the bank. Since it's in the bank and accessible for us, the armored service does not have to come up to transport the money."

Haney also confirmed the BBVA ATM near the Tree Monument will be removed within the month. "It's great after 10 years to have our own ATM in the build-

ing," said Haney.

For Bank of America customers, the likelihood of BofA installing a stand-alone ATM in a city in which they have no branch is remote because of the difficulty and cost of servicing that ATM from the nearest BofA bank branches more than 20 miles away in Hemet.

In locating stand-alone ATMs, banks often consider factors including distance from branches (core servicing centers), ease of servicing the ATM, threat scale for vandalism and/or crime, estimated traffic per day, rough estimation of transaction size per day and competition from other banks, according to Faisal Khan, a banking/payments consultant on Quora.com.

Marshall Smith can be reached at marshall@towncrier.com.

The new BBVA Compass ATM installed in the BBVA Idyllwild branch bank. The previous freestanding BBVA ATM near the Tree Monument will be removed within the month, according to Jeri Sue Haney, Idyllwild BBVA branch manager.

The Town Crier's Idyllwild daily high and low temperatures and rain and snow totals in the past were taken directly from the National Weather Service website, which gets its Idyllwild weather information from automatic weather sensing equipment at Idyllwild Fire Station, an official

NWS COOP reporter. The amount of rain plus the amount of water present in snow would be the "moisture" total for that day. But we cannot accurately report "moisture" since we currently receive no report of how much water is contained in any particular snowfall. [We are seeking reliable Idyllwild and Pine Cove full-time residents to provide this information. Residents who follow CoCoRaHS procedures would be strongly preferred. CoCoRaHS is an organization of private, amateur weather observers that provides carefully collected data for use by the NWS. If you are interested in providing us with rain and snow reports, please contact jack@towncrier.com or (951) 659-2145.]

Our weather season is July 1 to June 30. Our season totals now have been corrected for the period July 1 through September 17, 2018, which prior to this issue of the TC had been in error. For Hill road conditions and Hill weather, visit us on the Internet at www.idyllwildtowncrier.com or call Caltrans road update at 1-800-427-7623.

Skies were clear Tuesday afternoon on the Hill, but locals were bracing for predicted rain in snow, starting Wednesday. PHOTO BY EDDIE ALCAZAR

IWD adopts new water-shortage policy

Water rates will increase with conservation

By JP CRUMRINE
NEWS EDITOR

The Idyllwild Water District directors adopted a new water-shortage policy and rate structure at their Nov. 21 meeting.

The new policy defined five water-emergency stages (see accompanying table), customer responsibilities to conserve water during the various stages, and the authority to raise water rates during the three most stringent stages as water usage declines.

For several months, the board has discussed and debated the district's water status. Fern Valley is in Stage 1, essentially voluntary conservation. Pine Cove Water District is in a Stage 2 water emergency, which requires some mandatory conservation efforts, such as limiting outdoor irrigation, car washing and swimming-pool filling.

Only in October did IWD decide to enter water emergency Stage 1. The new Ordinance (66) replaces the current water-shortage policy (Ordinance 64). The full ordinance may be read in the Public Notices section, starting on page A7.

General Manager Jack Hoagland did praise IWD customers for their careful use of water.

"Our customers are pretty efficient. The highest usage was 285 gallons per minute in January 2001," he said. "It has not been greater than 250 gpm in more than a decade."

The principal criterion for determining in which stage IWD will be is called the district's Basic Capacity Ratio. This is simply the prior month's water usage divided by the district's supply capacity.

Hoagland provided the ratio for the past five months as an example. In July, the water demand (usage) was

236 gpm and the capacity was 427 gpm. The demand was 55 percent of the district's capacity. In October, demand fell to 173 gpm and capacity was 420 gpm for a ratio of 41 percent.

This ratio will trigger the various stages. When it is less than 50 percent, IWD will be in Stage 1, unless there are other circumstances requiring a different stage. Sue Nash, an Idyllwild resident, raised this question in the meeting and urged the board not to rely solely on its usage and supply.

"I'm concerned about running out of water. The board should not rely solely on financial criteria. It's important to use other criteria," she said.

As the demand increases, the district will shift to a higher stage. For example, if demand or usage exceeds 50 percent of capacity, Stage 2 can be triggered. Stage 3 will be entered when the ratio of usage to capacity exceeds 60 percent. Stage 5 will be applied when usage is greater than 86 percent of IWD water capacity.

As IWD moves into higher water-shortage stages and requests greater water conservation from its customers, usage will decline. To avoid the traditional problem of falling revenue with greater conservation, the board adopted new water rates for stages 2 through 5.

For example, a tier one user, less than 450 cubic feet, would be charged \$.02 per cubic foot in Stage 2. If the district had to enter Stage 5, the cost-per-cubic-foot would be

\$.0257, a 28.5 percent increase.

Hoagland stressed that as customers do reduce usage, their actual bills will not increase. Rather, with the higher rates, they will be paying more for the water that is used.

At least two people came to the meeting to speak to this issue, but left before speaking. The board chose to have a closed session as the first agenda item. While waiting outside for the public portion of the meeting to resume, the two people decided to leave since it was not clear how long the wait would be.

These rates were proposed and evaluated in the comprehensive rate study, which NBS conducted for the district in the spring. This study was the basis for the new rate structure adopted in June.

During the discussion of the ordinance, Hoagland said there are three wells that will be added to the distribution system within the next year. These could add

See IWD, page A9

Idyllwild Water District's water shortage stages

Stage	Title	Definition
1	Water supply Watch	Normal operation
2	Water Supply Alert	Voluntary reductions of 10 percent for all customers imposes Stage 2 drought rates
3	Water Supply Warning	Mandates elimination of certain outdoor water uses, goal of 20 percent usage reduction, impose Stage 3 drought rates
4	Extreme Warning	Need for more than 35 percent usage reduction, stage 4 drought rates
5	Water supply Emergency	Need for more than 50 percent usage reduction, eliminate all non-essential indoor and outdoor water use, impose State 5 drought rates

Note: During stages 3 through 5, IWD will not install any additional water meters.

Manager

Continued from A1

new general manager for the district.

The contract for the current general manager, Jack Hoagland, expires at the end of December. Kunkle wanted to commence the recruitment process in order to limit the potential time between a new person starting and Hoagland leaving.

Hunt, while supportive of Hoagland, preferred and expressed community support for a general manager who would live on the Hill.

A request for applicants was published in various periodicals and water publications. In October, Hunt reported that he had received several résumés.

The board scheduled a closed session at the beginning of the Nov. 21 regular meeting in order to review some of the applications. Although the posted agenda stated "... the board will be conducting interviews ...," Schelly affirmed that no applicants were present.

The meeting ended with another closed session for evaluation of the general manager.

After that, Schelly announced that the board decided not to renew Hoagland's contract beyond Dec. 31, its expiration date. And he would not continue on a month-to-month basis until a new general manager is hired.

During the closed session, the recruitment committee submitted a report to its board colleagues.

Although the committee had received about 50 applications, none of the individuals appeared to have all qualifications for both administrative and field experience, the committee wrote.

Consequently, it recommended the board shift the search to someone with extensive field experience in both water and wastewater operations. Meanwhile, it appointed Hosny Shouman, chief financial officer, as the acting general manager, after Hoagland's contract expires, until a fully qualified general manager is hired.

Hoagland was appointed in December 2016, following the September 2016 resignation of former General Manager Tom Lynch. Hoagland was given a one-year contract in December 2017.

Idyllwild Community Center

During the meeting, the board discussed its role providing water to the Idyllwild Community Center site. The emphasis of the discussion was essentially a rejection of the direction Hoagland had taken with respect to the ICC.

While the Oakwood pipeline was not on the November agenda, the directors' reaction to the general manager's consultation and decisions regarding these two projects was similar.

They felt he should have brought the decisions to the board before negotiating and agreeing to actions with these customers.

With respect to the ICC, Hoagland's decision to have the district assume the responsibility for the fire-water pipeline to the ICC site was unsupported. The fire line goes through Strawberry Plaza and was a private pipeline, which the plaza property owners jointly owned.

"I don't want us to take over existing pipe about 50 years old," said Hunt. And the rest of the board agreed with his concern about the district assuming responsibility for a 50-year-old pipeline and its burden on IWD

ratepayers. This view also applied to the possibility of the district taking responsibility for pipeline on the ICC site near the plaza.

They agreed that the district provides water through pipes to a customer's property line. At that point, the customer is responsible for any pipes to various structures on the property, not the district.

"I don't think the customers of Idyllwild Water should be burdened with pipeline that doesn't benefit the district," Kunkle added.

Hoagland argued that this was the district's responsibility, and two of the plaza land owners — Riverside County for the library and Fairway Market — were deeding the pipeline to IWD. Director Peter Szabadi objected to accepting these quick-claim deeds.

Finally, Kunkle raised an issue about the ICC's new 2-inch water meter. Although ICC has paid \$22,000 for the meter, he noted there is no application on record for the meter.

As the discussion of this item ended, Szabadi made a motion stating, "... the board has not accepted tender of responsibility for this private pipeline in Strawberry Plaza and disapproves any agreement negotiated by the general manager."

This motion was approved 4-0 and Schelly abstained.

ICC officials were surprised by the board's action and believe they have been working closely with IWD for several years. This includes following the recommendations from at least two general managers.

Filter and testing

Since the announcement that the district's water supply, particularly in the lower Pine Crest Avenue area, exceeds California's standards for disinfectant by-products, the board has been seeking solutions — both short-term and longer.

Hoagland did report that the carbon filter, which has been purchased to remove organic matter in the water supply, should be delivered in January and he thought it would be operational by early February.

However, Hunt has urged the board to consider other steps, such as reimbursing customers who buy a filter to remove the DBP before using the water.

This action and increasing the water-testing frequency were on the agenda.

However, the filter reimbursement issue did not include details on the amount nor the requirements for receiving a reimbursement.

Hunt suggested \$50 per family with a receipt. But the board took no action on this item.

Hoagland told the board that the current water sampling and testing procedures satisfy the state's Division of Drinking Water. Also, testing is expensive and expanding it will cost much more. In the past, IWD has spent about \$20,000 annually on water testing. Hoagland said that \$25,000 has already been expended through the first four months of the current fiscal year.

This item was tabled 4-0 and Hunt abstained from the vote.

Hunt

During the Director's Comments portion of the meeting, Hunt announced that he has reconsidered his resignation. At the end of the October meeting, he stated that

he would resign after the November meeting.

"After consultation with family and on Tahquitz Peak, I rescind my comment about leaving the board. I'd like to stay," he shared with his colleagues and public. "The community and board all want the same thing — good water at the best price."

Financial

The board voted to accept the draft audit for fiscal year 2017-18, which ended June 30. Scott Manno, a partner in the audit firm Rogers, Anderson Malody and Scott, discussed the audit.

"We have rendered an unmodified opinion, which is the highest level we can give," he told the board.

At the end of the fiscal year, IWD's net assets were greater than \$9 million, of which \$4 million was cash. This includes about \$1.2 million in specific reserves.

For the fiscal year, both the operating costs for the water and sewer programs exceeded the revenue from sales. However, the addition of property tax revenue and meter sales resulted in a positive outcome for the water program. The sewer program ended the year with a \$14,000 deficit, covered by reserves.

Water usage

In October, IWD customers used about 7.5 million gallons of water. This volume of usage was about 440,000 gallons less than September and 820,000 gallons less than October 2017.

For the period January through October, IWD water usage has totaled 79.1 million gallons, about 1.4 percent or 1.1 million gallons more than the same period in 2017.

However, the water loss (unaccounted-for water production) in October rose to 17 percent and has been this high for several months. In January, the water loss was less than 7 percent.

Since July, the average monthly water loss has been 16.5 percent. In May, the water loss rose to 10.1 percent. From January through May, the IWD water loss average was 6.2 percent; by September, the year-to-date loss rose to 13.8 percent.

COIN LAUNDRY

OUT LOUD

Sitting at this computer, thinking about the past few weeks of holiday events involving parties, parade, festivals, and lots and lots of people, puts my head in a spin.

It feels like, "Well, that all happened," but then more is coming. We still have a few holidays to go with the Hanukkah, Christmas and New Year's celebrations and all the preparation that goes into those events. The "Christmas creep" was upon us many weeks back.

Along the way, we've witnessed autumn with her beautiful flash of colors and felt the air turn cool. Hasn't she been grand this year — such a tremendous relief after this horrible summer of wildfire loss.

And beginning possibly Thursday afternoon, Idyllwild will usher in winter, weeks ahead of the Winter Solstice, with new snowfall, maybe ending the annual Snow Guessing Contest even.

Time to be prepared again, not for wildfires, but for adapting to cold weather and especially driving in it, warns Caltrans. But its advice is much like that of being prepared for wildfire: Have a full tank of gas, "bring a charged cell phone (charger), food, water, medications, flashlight, warm clothing/blankets and appropriate footwear in case you become stranded."

Much of it is common sense but we still procrastinate. What happens to other people doesn't happen to us.

But if we do prepare with all of the advice public officials offer, are we ever prepared enough?

Just like on Thanksgiving, I always think I'm fully prepared — that I've stocked my shelves and refrigerator with my entire list of cooking and baking needs. It never fails — I failed to buy enough of this or that, such as chicken stock.

For Christmas, I prepare all my shopping lists and make sure everything arrives at its destination on time. Then, at the last minute, I forget someone.

From the Harvest Festival where my daughter was setting up our booth Friday morning, she called to say she had forgotten to take the money bag from me she would need for change that day.

When we evacuated this summer, I thought I covered all the important things to bring but as my grandchildren helped me declutter the house before Thanksgiving last week, I discovered several important papers I would have greatly missed.

Speaking of something missed, I miss the four seasons we used to enjoy most years. Now, I only enjoy three: fall, winter and spring. Summer is the one I dread; the new norm, as we say. And that dread also creeps into autumn.

Those people in Paradise, like my ex-sister-in-law who escaped with her life and lost all her belongings, they could never have been prepared for that morning violence that changed their lives forever. If they had done everything we are advised to do to prepare for wildfire, would they have been any better off?

Will we ever be fully prepared for everything? No, but we can try. We can fill up our gas tank, follow the advisors and do the best we can to prepare for the worst. And then live life every day as if it's our last.

BECKY CLARK, EDITOR

IWD is in very good shape

EDITOR:

The current state of the Idyllwild Water District is very good. Our mission "to provide reliable water and sewer service in a safe, cost-effective and environmentally sound manner in accordance with the community needs" is being actively pursued.

During the drought, the reliability of water has been very good. The sewer system continues to operate efficiently. Our finances shows sound governmental procedures are followed meticulously. We have no unfunded liabilities.

Over the last couple of years, we have seen a high turnover in board members. There was a "blow out" at the sewer pond. There were two high water readings at one location. Employees have left for employment closer to their homes. Legal counsel has changed. The community was nearly lost to fire. The lack of precipitation continues.

These challenges have not been easy. The current board is able to weather criticism well and continues to work through the diverse opinions that each holds.

The sewer pond was repaired and reinforced. The high readings have gone down and a carbon filter permanent solution will be installed soon.

Employee benefits and incentives to stay are being explored. Our legal counsel continues to be accurate in their opinions. The water district, by all fire standards, was stellar during the Cranston fire.

The drought contingency plan will help us prepare for

drought. Our finances provide ample proof that at more than \$5 million, the district is sound.

Overall, the Idyllwild Water District performs the most essential functions seamlessly. When you turn on the tap, the water flows. When you flush, it is all taken care of by our "Auger Monster."

Our community continues to benefit from the hard work of the staff at Idyllwild Water. The current state of the Idyllwild Water District is very good.

CHARLES SCHELLY, AA BS DCNRCME
PRESIDENT, IDYLLWILD WATER DISTRICT

Grateful for the Saturday ceremony

EDITOR:

We would like to compliment the organizers of the Christmas Tree Lighting Ceremony on Saturday. What a wonderful job everyone did to make it so enjoyable.

We especially are grateful to Chris Perrault for organizing and to the Butterfields for bringing life back to Eleanor Park. We really appreciate the special place we call home.

DAVE HUNT AND KRIS KIRSCHBAUM
IDYLLWILD

(Editor's note: As always, the views of our columnists and letter writers are not necessarily the views of the Town Crier editors. The Town Crier welcomes views from all writers, including those in letters to the editor.)

Please renew your Memberships — and join if you haven't already

By JACK CLARK
CO-PUBLISHER AND GENERAL COUNSEL

We currently have 39 more active Members than we had at the close of our Charter (1st) year less than three months ago. New Members are joining and charter Members are renewing.

Advertisers are getting the idea, too. Business owners on the Hill are realizing that only advertising with the Town Crier has the benefit of keeping a newspaper on our Hill — a local information source that confirms the accuracy of information before it's printed, either on paper or online — a community watchdog that covers the eight local public entities funded by our taxes and that make decisions and recommendations as to how to spend more of our tax dollars.

If you haven't renewed yet, but you need to — then please do. If you neglected to timely renew and went expired, you can still rejoin as a 2nd-year new Member and carry on supporting your community's newspaper. (If you haven't received a renewal notice, your expiration date is listed above your name on your newspaper label.)

To all of you, congratulations! Thanks to you, the Membership model is working — keeping a newspaper going for our community.

Town Crier active Memberships

Honoring Desert war veterans

After years of efforts, meetings, Acts of Congress, Presidential approval and governmental agency hearings, the National Desert Storm War Memorial Association has established a site where a memorial will be built at 23rd St NW and Constitution Ave NW in Washington, D.C.

The memorial will remember those who served, honoring those who made the ultimate sacrifice, and educating current and future global citizens about the importance of Operations Desert Shield and Desert Storm.

Now that the site has been obtained, one of the biggest phases of this project remains — to raise the funds to build it. Although the land is provided by the government, no tax dollars or government money will be used for construction. All money must be raised through private donations from citizens, companies, etc.

To donate, visit www.ndswm.org/donate/.

For the record ...

Neither the Town Crier nor Idyllwild House Publishing Co. Ltd. has ever published Idyllwild Living magazine or Destination Idyllwild. Neither IHP nor the Town Crier bears any responsibility whatsoever for anything having to do with those publications. Jay Pentrack and Dolores Sizer have not been employed by IHP for two years. Please do not confront Town Crier employees with any concerns you may have regarding Pentrack's publications.

In April 2018, IHP and the Town Crier have published our annual **Spring-Summer Explore Idyllwild Directory** and **Explore Idyllwild Map**. Thousands have been printed and distribution on and off the Hill.

Please contact Lisa Streeter at 951-659-2145 to place an ad for your business in our two Explore Idyllwild publications coming next spring.

How to get a letter published

The Town Crier welcomes letters reflecting all opinions. Letters should be concise and to the point. They should be no longer than 400 words. Letters must be typewritten, double-spaced and in upper/lower case (not in all caps). Letters must be identified with the author's name, address and weekday phone number.

The Town Crier will not publish "thank-you" letters, consumer complaints, form letters, clippings from other publications or poetry. Political letters during election season cost 10 cents per word but are not accepted the week before an election.

We reserve the right to reject or edit letters for length, taste, clarity or frequency of submission. Only one letter per author within a 28-day period. Letters do not necessarily reflect the opinions of Town Crier staff. Letters may be submitted in person, by mail, by fax (659-2071) or by e-mail (becky@towncrier.com).

Deadline is 10 a.m. Monday.

WOMBANIA™

by PETER MARINACCI

LifeStream held a blood drive at Idyllwild Fire Station Saturday. Many from the community came out to donate and make a difference for those in need. Twenty-six individuals gave 28 units of blood. According to LifeStream's website, the nonprofit 501(c)(3) provides blood products and services to more than 80 Southern California hospitals in six counties, including Riverside County. Town Crier Membership Application:

NAME(S): _____
 MAILING ADDRESS: _____ CITY: _____ STATE: _____ ZIP: _____
 TELEPHONE NUMBER(S): _____
 EMAIL ADDRESS: _____

I (We) want to keep the Town Crier as a real newspaper for the benefit of our community, as follows:

- Angels:** Other amount unlimited above \$1,000 annually - \$ _____
- Heroes:** \$1,000+ annually - \$ _____
- Patrons:** \$500+ annually - \$ _____
- Sponsors:** \$250+ annually - \$ _____
- Sustaining Readers:** \$100+ annually - \$ _____

All Memberships may be paid for by the month, if you wish, by using a pre-submitted credit card, debit card, or PayPal account with the addition of a 3% fee. Contact Becky at the Town Crier office to make arrangements. 951-659-2145.

PLEASE NOTE: The Town Crier is NOT an official "nonprofit organization." (For practical reasons involving the likelihood of local factional efforts to dominate a nonprofit's board so as to gain editorial control of the paper, it could not be.) Therefore, your Membership contributions are NOT tax deductible.

And we know our Members appreciate that we cannot allow the fact of their Memberships to control the paper's ongoing editorial policies and decisions.

If you previously had an uncompleted subscription before we went "free on the Hill," or if you have an off-Hill subscription now, you may contact Becky for credit against or an extension of your new Membership. But she currently is extending Memberships for subscription holders without being asked.

MEMBERSHIP BENEFITS:

- ▶ Subscriptions to both printed and online issues of the Town Crier.
- ▶ Nice-looking "Idyllwild Town Crier Member" car-window decals, which we very much hope you will display so as to encourage others to join us.
- ▶ Recognition of your Membership in the Town Crier, unless you request anonymity.
- ▶ Occasional offers, special to our Members, from local businesses.
- ▶ Invitations to what we hope will be the annual Town Crier Membership Party.
- ▶ And most important and valuable of all: You will receive the satisfaction and pleasure of knowing that you are doing your part to support a real newspaper on our Hill for the benefit of our entire community.

Send completed form to Idyllwild Town Crier, P.O. Box 157, Idyllwild, CA 92549.

Checks may be made payable to "Town Crier."

You may contact Becky at 951-659-2145 or Becky@towncrier.com.

For the Idyllwild Arts & Entertainment Calendar, see "On the Town," on page B7. Submit listings and changes to becky@towncrier.com.

Idyllwild grinding facility closed Mondays starting Dec. 1

The Idyllwild grinding facility will be closed Mondays starting Dec. 1 through April 30, 2019.

Weekday operations will continue on Wednesdays and Fridays from 8 a.m. to 4 p.m. (closed for lunch from noon to 1 p.m.). The facility will resume Monday operations on May 1, 2019.

The facility is 1 mile south of the Idyllwild Transfer Station on Highway 243.

The grinding facility ac-

cepts wood waste affected by the bark beetle. Customers who use the facility pay a per-ton rate on pre-paid accounts.

Prohibited waste includes household waste, appliances, e-waste, metals, tires, burned debris and other hazardous, explosive and medical wastes.

For more information, contact the Riverside County Department of Waste Resources at 951-486-3200 or visit www.rcwaste.org.

Two local potters who were planning to show their work at the third-annual Harvest Festival in 1969 were Florance Crosby (left) and Helen Bisby. FILE PHOTO

70 years ago - 1948

Hollywood came to Idyllwild when the Rustic Theatre presented the first showing of "One Sunday Afternoon," starring Dennis Morgan. Morgan made an appearance at each showing.

65 years ago - 1953

Idyllwild Rotary became an official club. The organization had been forming for about a year.

60 years ago - 1958

While driving his pickup, Walter Barker dropped a cigarette. As he reached for it, his car hit a telephone pole and Barker went through the windshield.

55 years ago - 1963

The town was hushed as residents hovered close to radios and televisions for the latest news. President Kennedy was dead from an assassin's bullet.

50 years ago - 1968

Army Specialist 5 John Januik was awarded the Bronze Star for saving lives under fire during the Tet offensive during the Vietnam war.

45 years ago - 1973

Despite the gasoline crisis and two snowstorms on the Hill, about 3,000 people attended the seventh-annual Harvest Festival held Thanksgiving weekend in Town Hall.

40 years ago - 1978

Ernie Maxwell was working on his goal of establishing the most complete high-elevation plant nursery in California at the USC-Idyllwild campus.

35 years ago - 1983

A new community Christmas tree was planted in the center of town because the old tree in

Eleanor Park got too big for Idyllwild Firefighters Association members to safely decorate.

30 years ago - 1988

A storm blew through the Hill and left the first measurable snowfall of the season.

25 years ago - 1993

Officials of the Hemet station of the Riverside County Sheriff's Department were recruiting participants for an Idyllwild community service patrol.

20 years ago - 1998

Members of the children's choir gave it their full voices at rehearsal for the annual Idyllwild Christmas Tree Lighting Ceremony, which would be held over Thanksgiving weekend.

15 years ago - 2003

The Idyllwild Transfer Station's green-waste disposal area was staying open seven days a week because a dangerous amount of slash was accumulating from so many trees and bushes being cut down.

10 years ago - 2008

The call came late Saturday morning. Within another hour, Idyllwild Fire Protection District's four-man crew was in the midst of the Freeway Complex Fire in Corona, near Highway 91. For more than four days it closed 12 miles of the highway and burned or damaged homes in three counties.

5 years ago - 2013

The U.S. Forest Service was closing nearly 16,000 acres in the San Jacinto Ranger District for the next 12 months. In July, the Mountain Fire burned nearly 27,500 acres, resulting in significant trail damage from Garner Valley north to Saddle Junction.

1 year ago - 2017

In early November, the Trump administration released a "Climate Science Special Report." Contrary to many of the administration's environmental officials, the report found that the Earth's climate is changing due to a multitude of human actions.

Public Notices

Legals • Doing Business As

For questions about Public Notices call the Town Crier
(951) 659-2145 or Email: mandy@towncrier.com

Every day throughout the United States, newspapers publish thousands of public notices about events, conditions or actions that affect countless individuals, families, neighborhoods and businesses. Public notices cover many topics, including business matters, liquor licensing, public auctions and sales, estates, zoning, public meetings, bids to sell goods and services to the government, local government finances and state and local elections. Public notice is a fundamental component of our system of representative democracy, which depends upon the participation of educated, responsible citizens.

Statement filed with the County Clerk of Riverside County on Nov. 13, 2018.

FILE NO.:
R-201815621

NOTICE — IN ACCORDANCE WITH SUBDIVISION (a) OF SECTION 17920, A FICTITIOUS NAME STATEMENT GENERALLY EXPIRES AT THE END OF FIVE YEARS FROM THE DATE ON WHICH IT WAS FILED IN THE OFFICE OF THE COUNTY CLERK, EXCEPT, AS PROVIDED IN SUBDIVISION (b) OF SECTION 17920, WHERE IT EXPIRES 40 DAYS AFTER ANY CHANGE IN THE FACTS SET FORTH IN THE STATEMENT PURSUANT TO SECTION OF 17913 OTHER THAN A CHANGE IN THE RESIDENCE ADDRESS OF A REGISTERED OWNER. A NEW FICTITIOUS BUSINESS NAME STATEMENT MUST BE FILED BEFORE THE EXPIRATION.

THE FILING OF THIS STATEMENT DOES NOT OF ITSELF AUTHORIZE THE USE IN THIS STATE OF A FICTITIOUS BUSINESS NAME IN VIOLATION OF THE RIGHTS OF ANOTHER UNDER FEDERAL, STATE OR COMMON LAW (SEE SECTION 14411 ET SEQ., BUSINESS AND PROFESSIONS CODE).

Publication of notice pursuant to this section shall be once a week for four successive weeks. Four publications in a newspaper regularly published once a week or oftener, with at least 5 days intervening between the respective publication dates not counting such publication dates, are sufficient. The period of notice commences with the first day of publication and terminates at the end of the twenty-eighth day, including therein the first day.

CERTIFICATION

I hereby certify that this copy is a correct copy of the original statement on file in my office.

PETER ALDANA,
County Clerk

Pub. TC: Nov. 22, 29, Dec. 6, 13, 2018.

FICTITIOUS BUSINESS NAME STATEMENT

The following person (persons) is (are) doing business as THERMAFLOW HEAT at 142 Las Flores Dr., Hemet, CA 92544, Riverside County. THERMAFLOW HEAT, INC. at 142 Las Flores Dr., Hemet, CA 92544. The List State of Corporation is CA.

This business is conducted by a Corporation. The registrant commenced to transact business under the fictitious name listed above on 11/14/2018.

I declare that all information in this statement is true and correct. (A registrant who declares as true any material matter pursuant to Section 17913 of the Business and Professions Code, that the registrant knows to be false, is guilty of a misdemeanor punishable by a fine not to exceed one thousand dollars (\$1,000).)

full cost of providing water service to customers, including the cost of sources of water, treatment facilities, pipelines, and other infrastructure, through the establishment of water rates; in addition, the District has the power and authority to enact this WSCP Ordinance pursuant to the following state laws:

- A. Water Code Section 31026, which authorizes the District to (i) restrict the use of District water during any emergency caused by drought or other threatened or existing water shortage, (ii) to prohibit the waste of District water or the use of District water during such periods, and (iii) to prohibit the use of such water during such periods for specific uses which the District may from time to time find to be nonessential; and
- B. Water Code Section 375, which authorizes the District to adopt and enforce a water conservation program to reduce the quantity of water used by the inhabitants of the District for the purpose of conserving the water supplies of the District; and
- C. Water Code Section 350, which gives the Board of Directors the authority to declare a water shortage emergency whenever the Board finds and determines that the ordinary demands and requirements of water consumers cannot be satisfied without depleting District water supplies to the extent that there would be insufficient water for human consumption, sanitation and fire protection.

Section 4. Adoption of Five-Stage Water Shortage Contingency Plan

The District hereby adopts the Idyllwild Water District Water Shortage Contingency Plan, incorporated herein by reference and attached as Exhibit "A", and enacts regulations and restrictions on outdoor water use consisting of five (5) stages as follows:

A. Stage 1 – Water Supply Watch: The term Water Supply Watch acknowledges that while near term supply and storage conditions may from time to time improve due to wet weather, there are continued long-term challenges that warrant continued wise and efficient use of water. The District's alpine climate, average rainfall of 26-inches in our service area, the uncertain characteristics of the fractured granite mountainous groundwater supply and the absence of any potential supplemental water supply sources, make ongoing efficient water use imperative.

Under Stage 1 conditions, the District's Basic Capacity Ratio ("BCR") is 0-50%. Customers are requested to continue to use water efficiently and practice sensible voluntary water conservation.

B. Stage 2 – Water Supply Alert: There is a possibility that the District may not be able to reliably meet all of the water demands of its customers and the District's BCR is 51-60%. This may mean local groundwater levels are lower than normal, or the District is mandated by a state or federal regulatory agency with jurisdiction over the District to reduce water use. Additional voluntary water use reduction measures will be called upon during this stage whereby customers are asked to reduce water usage by an additional 10%. To reduce the financial impact to the District of the designated 10% reduction in water use, Stage 2 Water rates as described in Appendix C of the Water Shortage Contingency Plan will be implemented for the commodity (variable) portion of water bills.

C. Stage 3 – Water Supply Warning: At Stage 3, water supply shortages for the District are evident through a BCR of 61-70%, expected to continue and possibly worsen, or the District is mandated by a state or federal regulatory agency with jurisdiction over the District to reduce water use by 20% to 35%. Some restrictions on certain non-essential outdoor Residential, Commercial, and Institutional water use will be implemented, and drought rates described in Stage 3 of Appendix C of the Water Shortage Contingency Plan will be passed through to customers. Monetary assessments and/or fines for non-compliance with restrictions will be imposed as described in Section 4 of the Water Shortage Contingency Plan.

D. Stage 4 – Extreme Water Supply Warning: At Stage 4, water supply shortages exist and are expected to worsen as indicated by a BCR of 71% - 85%, or the District is mandated by a state or federal regulatory agency with jurisdiction over the District to reduce water use by 36% to 50%. Complete restriction of non-essential outdoor water use will be implemented. The District will work to achieve an appropriate balance of water use decreases to all customer classes including residential, institutional, and commercial. The District will implement drought rates described in Stage 4 of Appendix C of the Water Shortage Contingency Plan. Significant monetary assessments and/or fines for non-compliance of such restrictions will be imposed as described in Section 4 of the Water Shortage Contingency Plan.

E. Stage 5 – Water Supply Emergency: At Stage 5, water supply shortages are expected to worsen as indicated by a BCR of more than 86%, or the District is mandated by a state or federal regulatory agency with jurisdiction over the District to reduce water use by more than 50%. This may be because of an emergency resulting in the inability of the District's water distribution system to deliver all of the District's supply. Restrictions on all non-essential outdoor and indoor water use will be implemented. The District will implement drought rates described in Stage 5 of Appendix C of the Water Shortage Contingency Plan and monetary assessments and/or fines for non-compliance of such restrictions will be imposed as described in Section 4 of the Water Shortage Contingency Plan.

Section 5. Enforcement and Fines

Measures called for in the stages of the District's Water Shortage Contingency Plan will be primarily enforced through fines and monetary assessments. In extreme cases, certain types of outdoor water service may be discontinued until the emergency situation is over. Water users who violate any of the general provisions or additional measures required as part of an applicable Water Shortage Contingency Plan stage are subject to the enforcement of the District's Water Conservation Policy.

A. Malfunction of Water Conveying Hardware: Violations which are related to the malfunction of water conveying hardware or devices are subject to the following enforcement:

i. First Violation: For a first violation, the District shall issue a written notice of fact of such violation to the customer. The customer shall then be allowed a period of 5 days following issuance of the written notice to correct the violation described therein before a second violation will be issued. The customer will be provided a copy of the Section 4 of the Water Shortage Contingency Plan governing enforcement.

ii. Second Violation: For a second violation within the prior 12-month period, including but not limited to a failure to correct an initial violation within the time stated in the notice, the District shall issue a fine in the amount of \$50.00, which shall be added to the customer's water bill. The customer shall be allowed a period of 5 days following delivery of the written notice to correct the second violation before a third violation will be issued. The customer will be provided a copy of the Section 4 of the Water Shortage Contingency Plan governing enforcement.

iii. Third Violation: For a third violation in the prior 12-month period, the District shall issue a written notice of fact of such violation to the customer when a second violation has not been corrected within a period of 5 days following delivery of the second violation notice. A fine in the amount of \$100.00 shall be added to the customer's water bill upon issuance of a third violation. The customer shall be allowed 5 days following issuance of the written notice to correct the third violation before a fourth violation will be issued. The customer will be provided a copy of the Section 4 of the Water Shortage Contingency Plan governing enforcement.

iv. Fourth Violation: For a fourth violation in the prior 12-month period, the District shall issue a written notice of fact of such violation to the customer when a third violation has not been corrected within a period of 5 days following delivery of the third violation notice. A fine in the amount of \$250.00 shall be added to the customer's water bill upon issuance of a fourth violation. The customer shall be allowed 5 days following issuance of the written notice to correct the fourth violation before a fifth violation will be issued. The customer will be provided a copy of the Section 4 of the Water Shortage Contingency Plan governing enforcement. In addition, the District may install a flow-restricting device at such meter with a one-inch orifice for services up to one and one-half inch size, and comparably sized restrictors for larger services, on the service of the customer at the premises in which the violation occurred for a period of not less than 48

hours. The charge to the customer for installing a flow-restricting device shall be based on the size of the meter and actual cost of installation. The charge for installation and removal shall be as set forth in the District's rules. A flow-restricting device may be reinstalled for repeated violations.

v. Fifth Violation: For a fifth violation, the District shall issue a written notice of fact of such violation to the customer when the fourth violation has not been corrected within a period of 5 days following issuance of the fourth violation notice. A fine of \$500.00 shall be added to the customer's water bill following the issuance of the fifth violation notice until the violation is corrected. In addition, the District may install a flow-restricting device at such meter with a one-inch orifice for services up to one and one-half inch size, and comparably sized restrictors for larger services, on the service of the customer at the premises in which the violation occurred for a period of not less than 48 hours. The charge to the customer for installing a flow-restricting device shall be based on the size of the meter and actual cost of installation. The charge for installation and removal shall be as set forth in the District's rules. A flow-restricting device may be reinstalled for repeated violations.

B. Other Violations: Violations that are not related to the malfunction of water conveying hardware or devices, but are related to actions taken by a water user including, but not limited to, (a) applying (e.g., hosing or spraying) potable water to outdoor landscapes in a manner that causes runoff that flows onto adjacent property, non-irrigated areas, private and public walkways, roadways, parking lots or structures; (b) using a hose to wash an automobile with potable water, except where the hose has a shut-off nozzle or device attached to it that causes it to immediately cease dispensing water when not in use; (c) applying potable water to driveways and sidewalks; and (d) using potable water in a fountain or other decorative water feature, except where the water is part of a recirculating system, are subject to the same enforcement procedures outlined above with the exception that the expected timeframe for correction of the violation is immediate, and a violation of such types (a), (b), (c) or (d) on a subsequent day may be considered a separate violation.

Customers shall pay all water bills and fines in accordance with the due dates stated on their bills. An Appeals Process is offered to customers that disagree with the fines assessed. If the appeal is upheld in favor of the customer, appropriate monies will be refunded. Details of the Appeals Process are included in the District's Water Conservation Policy (See Water Shortage Contingency Plan, Appendix B).

Section 6. Water Conservation Stage 2 through 5 Drought Rates

The District hereby incorporates and adopts the drought rates as described in Appendix C of the Water Shortage Contingency Plan and the cost of service study in support thereof. The drought rates are to be implemented concurrently with a determination of any drought/water shortage stage greater than 1, thereby increasing the various commodity rates inversely to the predicted reduction percentage of water use in the designated stage in order to maintain the District's financial stability and sustainability.

Section 7. CEQA Exemption

Adoption of this Ordinance is exempt from the California Environmental Quality Act ("CEQA") pursuant to Section 15061(b)(3) of the CEQA Guidelines (14CCR 15061(b)(3)). CEQA applies only to projects that have the potential for causing a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. It is therefore found and declared that the adoption of the WSCP water rate schedule in this ordinance will not have a significant effect on the environment, as the consumption-based water rates herein adopted will encourage water conservation; and the WSCP encourages conservation.

Section 8. Rescission; Incompatible Provisions

District Ordinance No. 64 and all amendments thereto, are hereby rescinded in their entirety. In addition, to the extent any provision of this Ordinance is incompatible or at variance with any prior-adopted ordinance or resolution, the provisions of this Ordinance shall take precedence and all prior ordinances and resolutions shall be interpreted to harmonize with and not change the provisions of this Ordinance.

Section 9. Judicial Review

Any judicial action or proceeding to attack, review, set aside, void or annul this Ordinance or any determination made pursuant thereto shall be commenced within 90 days after the date of adoption of this Ordinance or the date of any determination made pursuant thereto. California Code of Civil Procedure, Section 1094.6 is hereby adopted and made applicable to any judicial review of any decision made by the Board of Directors, the General Manager, or agents, representatives or employees of the District.

Section 10. Severability

If any section, subsection, sentence, clause or phrase is for any reason held to be invalid or unconstitutional by decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions. The Board of Directors hereby declares that it would have passed those sections, subsections, clauses and phrases irrespective that one or more may be declared invalid or unconstitutional.

Section 11. Publication; Effective Date

This Ordinance shall be published in an adjudicated publication within 10 days after its adoption; in addition a copy shall be posted in three public places, with the votes for and against it; it shall become effective 30 days after it is adopted.

PASSED AND ADOPTED on this November 21, 2018, by the following vote:

AYES: Dr. Schelly, Peter Szabadi, Steve Kunkle, David Hunt and Les Gin
 NOES:
 ABSENT:
 ABSTAIN:

ATTEST: APPROVED AS TO FORM:
 Jeannine Copelin Christine Carson
 Board Secretary

CERTIFICATION

I am Secretary to the Board of Directors of the Idyllwild Water District, and I hereby certify that the foregoing Ordinance was duly adopted by the Board of Directors at its regular meeting of November 21, 2018 and that the foregoing copy of the Ordinance is a true and correct copy of the original Ordinance adopted by the Board of Directors and maintained in the DISTRICT's office.

Section 1: Purpose and Principles of Plan

1.1 Water Code Sections 10632

The Idyllwild Water District (IWD/District) has developed a Water Shortage Contingency Plan (WSC Plan) in accordance with California Water Code Section 10632. Section 10632 sets forth the contents of an urban water shortage contingency plan in the event of drought, water supply reductions, failure of a water distribution system, other emergencies, or regulatory statutes, rules, regulations or policies reducing water supplies by state and federal agencies with jurisdiction over the District. The contingency plan must demonstrate the ability of an agency to meet demands under a supply shortage of up to 50 percent. Emphasis is placed on protection of public health, sanitation, fire protection, and the general public welfare. As such, this WSC Plan adopts regulations and restrictions on outdoor water use through Water Shortage Stage 4 and on indoor water use in Water Shortage Stage 5, including residential, commercial, and institutional customers.

1.2 Principles of District's Water Shortage Contingency Plan

The overall principle of the District's WSC Plan is to reliably meet water demands during shortages caused by droughts, supply reductions, and emergency conditions. The WSC Plan recognizes the following priorities for potable water:

- Public safety, health and welfare
- Economic sustainability
- Quality of life for the District's customers
- Statutory and regulatory requirements

The potable water use regulated and/or prohibited under this WSC Plan is considered non-essential use. Continued use of such water during times of water shortage or other emergency supply conditions are deemed to constitute a waste of water and will be subject to appropriate monetary assessments and fines as described in Section 4 of this WSC Plan.

To compensate for the reduction in water sales and revenue as a result of implementation of the WSC Plan, the District will implement WSC Plan rates to offset any such revenue losses (see Section 5 of this WSC Plan).

1.3 Public Notice and Coordination with Other Water Agencies

The District will periodically provide the public with information about the WSC Plan, including its implementation. Such information will include, but not be limited to, stages of action, restrictions on water use, water use reductions, water-saving tips, and potential Allocation Surcharges, monetary assessments and fines for non-compliance of prohibited activities for water conservation, water use efficiency, and failure to achieve water use reductions defined in the WSC Plan and the Water Conservation Policy. The District may use the local newspaper, the Town Crier, the District website and direct mail notice to provide the information.

Section 2: Authorization and Application of WSC Plan

2.1 Authorization of WSC Plan
 The water shortage contingency measures of this WSC Plan shall apply to all persons, customers, and property using water provided by the District. The terms "persons" and "customers" used in this WSC Plan include individuals, home and property owners, corporations, businesses, agencies, associations, and all other legal entities.

A declaration of a water shortage condition as outlined below shall become effective immediately, and shall be made by public announcement and published in a newspaper of general circulation.

While Stage 1 "Water Supply Watch" measures remain in effect at all times, three basic conditions can trigger the declaration of further Water Shortage Stages of the WSC Plan. At the time a water shortage condition is identified, the General Manager shall recommend the appropriate Shortage Stage and corresponding water usage decrease based on an analysis of current and available water supplies and anticipated demands. Except as provided below, the Board shall consider and adopt a resolution declaring the appropriate Shortage Stage and measures to be implemented thereto.

Condition No. 1: Long- and Short-Term Water Supply Deficiencies

The District's General Manager shall request the Board of Directors (Board) to authorize and implement provisions of the WSC Plan when the demand for District water is anticipated to be in excess of the District's established ratios for the available water supply. The determination shall be made based on the Board adopted criteria shown in Appendix A and upon consideration of other factors relative to the water supply and use of the District, if any, to implement the additional measures of the WSC Plan. The Board will have the authority to adopt a resolution to initiate, modify or terminate the appropriate shortage stage and any of the measures described in the WSC Plan based on the criteria without holding additional meetings or hearings, consistent with the criteria in Appendix A.

Condition No. 2: Immediate Emergency Water Shortage Response
 An immediate emergency water shortage is defined as an unexpected or catastrophic event including, but not limited to, a regional power outage, earthquake or other disaster, or major other event that prevents or interrupts adequate water to be delivered to customers. By adopting this WSC Plan, the Board authorizes the General Manager to declare the extent of the immediate water shortage emergency and to indicate which measures of the WSC Plan are needed.

Condition No. 3: Emergency Declaration of State of Federal Agency
 Upon the declaration of a water shortage emergency by resolution or other appropriate authoritative process of a state or federal agency with jurisdiction over the District, the District shall respond to the requirements set forth in the governing statutes, rules, regulations, or documents.

2.2 Criteria for Water Shortage Stages

The District staff will continue to monitor water demands and supplies on a regular basis, including but not limited to, availability and reliability of supply production facilities, and daily demand, and shall determine, based on the criteria in Appendix A, when conditions warrant an initiation or termination of each shortage stage and water conservation measures to be implemented thereto of the WSC Plan as follows:

Stage 1 – Water Supply Watch Criteria: The term Water Watch acknowledges that while near term supply and storage conditions may from time to time improve due to wet weather, there are continued long-term challenges that warrant continued wise and efficient use of water. In addition, our alpine climate, average rainfall of 26-inches in our service area, the uncertain characteristics of the fractured granite mountainous groundwater supply and the absence of any potential supplemental water supply sources, make ongoing efficient water use imperative. Under Stage 1 conditions, i.e., the Basic Capacity Ratio (BCR) is 0-50%, customers are requested to continue to use water efficiently and practice sensible voluntary water conservation. It should also be noted that water waste is in violation of California Law and District's Water Conservation Policy at any Stage.

Stage 2 – Water Supply Alert Criteria: There is a possibility that the District may not be able to reliably meet all of the water demands of its customers and the BCR is 51-60%. This may mean local groundwater levels are lower than normal, or the District is mandated by a state or federal regulatory agency with jurisdiction over the District to reduce water use. Additional voluntary water use reduction measures will be called upon during this stage. To reduce the financial impact to the District of the designated 10% reduction in water use, Stage 2 Water rates as described in Appendix C will be implemented for the commodity (variable) portion of water bills.

Stage 3 – Water Supply Warning Criteria: Water supply shortages for the District are evident through a BCR of 61-70%, expected to continue and possibly worsen, or the District is mandated by a state or federal regulatory agency with jurisdiction over the District to reduce water use by 20% to 35%. Some restrictions on certain non-essential outdoor Residential, Commercial, and Institutional water use will be implemented, and drought rates described in Stage 3 of Appendix C will be passed through to customers. Monetary assessments and/or fines for non-compliance with restrictions will be imposed as described in Section 4 of this WSC Plan.

Stage 4 – Extreme Water Supply Warning Criteria: Water supply shortages exist and are expected to worsen as indicated by a BCR of 71% - 85%, or the District is mandated by a state or federal regulatory agency with jurisdiction over the District to reduce water use by 36% to 50%. Complete restriction of non-essential outdoor water use will be implemented. The District will work to achieve an appropriate balance of water use decreases to all customer classes including residential, institutional, and commercial. The

District will implement drought rates described in Stage 4 of Appendix C. Significant monetary assessments and/or fines for non-compliance of such restrictions will be imposed as described in Section 4 of this WSC Plan.

Stage 5 – Water Supply Emergency Criteria: Water supply shortages are expected to worsen as indicated by a BCR of more than 86%, or the District is mandated by a state or federal regulatory agency with jurisdiction over the District to reduce water use by more than 50%. This may be because of an emergency resulting in the inability of the District's water distribution system to deliver all of the District's supply. Restrictions on all non-essential outdoor and indoor water use will be implemented. The District will implement drought rates described in Stage 5 of Appendix C. Monetary assessments and/or fines for non-compliance of such restrictions will be imposed as described in Section 4 of this WSC Plan.

Section 3: Supply Shortage Contingency Measures

Section 3 presents the shortage contingency measures the District may impose during each Shortage Stage for its residential, commercial and institutional customers. Through timely communication, using various local media outlets and the monthly bill, the District will provide updates regarding supply conditions and WSC Plan Stages. The District is not responsible for any customer issues that may arise from the implementation of the WSC Plan or adjustment in timing of the WSC Plan's Stages.

1 Stage 1: Water Supply Watch – Basic Capacity Ratio = 0 – 50%
 Under Stage 1 conditions, customers are requested to continue to use water efficiently and practice sensible voluntary water conservation. Water waste violates California Law and the District's Water Conservation Policy at this and any other Shortage Stage.

In order to comply with requirements of state legislation and Water Conservation Best Management Practices, it shall be a violation of the District's Water Conservation Policy at any time to make, cause, or permit the use of water for residential, commercial, institutional or any other purpose in a manner constituting water waste.

All Customer Classes

Customers shall abide by the following water conservation requirements at all times in all water Shortage Stages:

1. Refrain from hosing down driveways and other hard surfaces, except for health or sanitary reasons.
2. Repair faucets, toilets, pipes and other potential sources of water leaks as soon as practical.
3. Irrigate landscape between 6 p.m. and 9 a.m. This provision does not apply when:
 - a. Manually watering during the establishment period of a new landscape;
 - b. Manual spot watering is done to address landscape issues;
 - c. Temperatures are predicted to fall below freezing;
 - d. Testing/repairing an irrigation system;
 - e. Using drip irrigation systems; and
 - f. A longer watering window is needed due to system constraints.
4. Adjust and operate all landscape irrigation systems in a manner that will maximize irrigation efficiency and avoid over watering or watering of hardscape and resulting runoff.
5. Prevent excessively irrigating any lawn or landscape area that would cause the sheeting of water to flow; eliminate water runoff from lawns or landscape areas into any drainage courses, streets, or streams.
6. Do not use decorative fountains unless they are equipped with a re-circulating water system.
7. When installing plumbing fixtures, use low-flow fixtures, except for those that require high-flow fixtures for health and/or sanitary reasons. Where possible, install pool and spa covers to minimize water loss due to evaporation during non-operating days.
8. Do not allow water to run while washing vehicles, including autos, trucks, trailers, motor homes, boats or others. Use a hose with an automatic shutoff valve to avoid runoff into drainage courses, streets or streams. Use a hose equipped with an automatic shutoff valve or other device that causes it to cease dispensing water immediately when not in use.
9. When installing new landscaping, refer to the Water Use Classification of Landscape Species (WUCOLS) or the Idyllwild Garden Club list of local and drought tolerant plants suitable for the area. Plant low water California Friendly® Native Landscapes. Non-functional turf areas are not recommended. Turf lined channels are only permitted when justified by environmental regulations.
10. Refrain from watering during rain, or high winds by turning off irrigation timers.
11. Refrain from irrigation for two (2) days following a measurable rainfall.
12. No irrigation of turf or higher water use plants within public street medians and parkways.

All existing and future District customers in violation of these water conservation requirements, or with excessive runoff that would cause water to flow from property into any drainage courses, streets, or streams are subject to fines. Fines are detailed in Section 4 and in the Water Conservation Policy in Appendix B.

3.2 Stage 2: Water Supply Alert – Basic Capacity Ratio 51% - 60%

-Stage 1 water conservation requirements remain in effect for all customer classes
 -Additional 10% voluntary water use reduction measures for all customer classes
 -Water use rates described in Stage 2 of Appendix C are implemented

All Customer Classes

Additional voluntary water use reduction measures are requested of all customer classes to reduce water use by an additional 10% as follows:

- Outdoor Voluntary Water Use Reduction Measures
1. Eliminate sprinkler overspray from driveways and sidewalks. Divide irrigation runtimes into multiple cycles to eliminate runoff water that leaves the landscaped area.
 3. Tune-up your irrigation system by checking for and repairing leaks and damaged sprinklers.
 4. Use a broom instead of a hose to clean driveways, sidewalks and other hardscape surfaces, except for California Department of Health Services prescribed health or sanitary reasons.
 5. Install pool and spa covers to minimize evaporative water loss.
 6. Customers, including but not limited to, parks, school grounds, and commercial landscaping are restricted to irrigation applications between 6 p.m. and 9 a.m. These irrigators are advised to adjust automatic irrigation timers according to changing weather patterns and landscape requirements.

Indoor Voluntary Water Use Reduction Measures

7. Wash only full loads of laundry and/or dishes.
8. Shorten showers and turn off faucets while brushing teeth or shaving.

No monetary assessments (see Section 4) or mandatory restrictions will be imposed during Stage 2. However, the District will implement drought rates described in Stage 2 of Appendix C. All existing and future District customers in violation of the Stage 1 water conservation requirements in effect at all times, or with excessive runoff that would cause water to flow from property into any drainage courses, streets, or streams are subject to fines. Fines are detailed in Section 4 and in the Water Conservation Policy in Appendix B.

3.3 Stage 3: Water Supply Warning – Mandatory Water Waste Reduction – Basic Capacity Ratio 61% - 70%

-Stage 1 water conservation requirements remain in effect for all customer classes.
 -Stage 2 indoor voluntary water use reduction measures remain in effect
 -Mandatory outdoor water use reduction measures for all customer classes
 -The District will implement drought rates described in Stage 3 of Appendix C.
 -Fines for non-compliance are imposed

Stage 3: The District will implement drought rates described in Stage 3 of Appendix C.

All Customer Classes

Stage 3 mandatory outdoor water use reduction measures for all customer classes are as follows:
 Outdoor Mandatory Water Use Reduction Measures

1. Irrigate lawns and landscape only between 6:00 p.m. and 9:00 a.m.
2. No application of potable water to outdoor landscapes (turf and ornamental landscapes) during a rainfall event and up to 48 hours after measurable rainfall. Measurable rainfall for

the region is defined as greater than or equal to 0.5 inches.

3. Do not allow irrigation water to leave the landscaped area.
4. No significant landscaping shall be installed or renovated.
5. Use a broom instead of a hose to clean driveways, sidewalks and other hardscape surfaces, except for California Department of Health Services prescribed health or sanitary reasons.
6. Eliminate sprinkler overspray from driveways and sidewalks. Divide irrigation runtimes into multiple cycles to eliminate runoff water that leaves the landscaped area.
7. Tune-up irrigation system by checking for and repairing leaks and damaged sprinklers.
8. Do not allow hoses to run while washing motor vehicles (including autos, trucks, trailers, motor homes, boats or others). Use a hose equipped with an automatic shutoff valve or other device that causes it to cease dispensing water immediately when not in use.
9. No new water meters allowed, except for health and safety.

Commercial and Institutional Customers

Stage 3 mandatory water use reduction measures for all C&I customers are as follows:

10. Commercial and Industrial users are to adjust automatic irrigation timers according to changing weather patterns and landscape requirements.
11. Drinking water shall not be served other than upon request in eating or drinking establishments, including but not limited to restaurants, cafes, cafeterias, bars, or other public places where food and drink are served and/or purchased.
12. Operators of hotels and motels shall provide guests with the option of choosing not to have towels and linens laundered daily. The hotel or motel shall prominently display notice of this option in each bathroom using clear and easily understood language.

Fines for non-compliance will be imposed for flagrant or repeat violations, in addition to other monetary assessments for excessive use (see Section 4). All existing and future District customers in violation of the Stage 1 water conservation requirements in effect at all times, consistent with Section 2 General Provisions of the District's Water Conservation Policy, or with excessive runoff that would cause water to flow from property into any drainage courses, streets, or streams, are subject to fines. Fines are detailed in Section 4 and in the Water Conservation Policy in Appendix B.

3.4 Stage 4: Extreme Water Supply Warning – Mandatory Outdoor Water Elimination

-Stage 1 and 2 water conservation requirements remain in effect for all customer classes
 -Stage 3 mandatory water use reduction measures remain in effect for all customer classes
 -Stage 2 Indoor voluntary water use reduction measures remain in effect
 -Outdoor watering and/or irrigation is prohibited
 -The District will implement drought rates described in Stage 4 of Appendix C
 -Variances for health and safety only
 -No new water meters allowed, except for health and safety.
 -Fines for non-compliance are imposed, in addition to other monetary assessments for excessive use

Stage 4: The District will implement drought rates described in Stage 4 of Appendix C.

All Customer Classes

Stage 4 additional mandatory water use reduction measures for all customer classes are as follows:

- Outdoor Mandatory Water Use Elimination
1. Washing of personal vehicles not home (including autos, trucks, trailers, motor homes, boats or others) is prohibited.
 2. Outdoor watering and/or irrigation is prohibited at all times
 3. No water for decorative fountains may be used, even if it has a recirculating system.
 4. No filling or water level maintenance of outdoor pools.
 5. The District shall not install new water meters, except for health and safety.
 6. No new will serve letters will be issued by the District

Commercial and Institutional

Stage 4 additional mandatory water use reduction measures for all C&I are as follows:

7. No new hydrant-construction or temporary construction meter permits will be issued by the District.
- Fines for non-compliance will be imposed for flagrant or repeat violations, in addition to other monetary assessments for excessive use (see Section 4). All existing and future District customers in violation of the water conservation requirements in effect at all times, consistent with Section 2 General Provisions of the District's Water Conservation Policy are subject to fines. Fines are detailed in Section 4 and in the Water Conservation Policy in Appendix B.

Legals

Continued from previous page

time after WSC Plan's staged implementation. The following information must be provided:

1. Name, contact phone number, service address and customer account number of petitioner;
2. Purpose of water use (e.g., domestic, commercial, institutional);
3. Specific provision(s) of the WSC Plan from which the petitioner is requesting relief;
4. Detailed statement as to how the provision of the WSC Plan adversely affects the petitioner or what damage or harm will occur;
5. Description of the relief requested;
6. Period of time for which the variance is sought; and
7. Any alternative water use restrictions (e.g., indoor use) that the petitioner is taking or proposes to take to meet the intent of the WSC Plan.

Section 5: Revenue and Rate Impacts

The District has an Emergency Cash Reserve Policy to deal with catastrophic events. Short of a catastrophic event, Appendix C establishes rates to be implemented concurrently with a determination of any drought Stage greater than 1 which will increase the various commodity rates inversely to the predicted reduction percentage of water use in the designated stage to maintain the District's financial stability and sustainability.

Section 6: District's Emergency Actions

The Water Code Section 10632 requires actions to be undertaken by the urban water supplier to prepare for, and implement during, a catastrophic interruption of water supplies including, but not limited to, a regional power outage, an earthquake, or other disaster. The District operates in an area where the probability of an earthquake is high. Depending on the severity, an earthquake may damage the water system. The District's Emergency Response Plan provides a framework for an organized response to an earthquake emergency. The primary objectives of the WSC Plan are to maintain the functionality of the water distribution system, assess the system and, if necessary, make rapid repair to any damage, and prevent any further damage. The District's response to an earthquake will be directed by the General Manager.

The following are the District Response Phases in the event of an Earthquake:

- Phase I – Inspection: A rapid inspection to determine injuries and any damage which might affect the distribution system.
- Phase II – Report Back: Emergency communications flow: additional inspection procedures.
- Phase III – Repair: Coordination of maintenance forces.
- Phase IV – Management Procedures: Key Management responsibilities for the emergency.
- Phase V – Operating/Maintenance/Engineering: Outlines procedures for division staff.

Prior to Phase I inspections, system operators and inspectors report to the Emergency Operations Center to receive assigned inspection routes. The Emergency Operations Center creates a communications hub for the District to efficiently manage their available resources. For example, personnel inspecting Foster Lake Dam, wastewater treatment facilities, and wells receive their assignments from and report their findings to the Emergency Operations Center. The Emergency Response Plan contains the areas that are inspected with driving directions for specific inspection routes. If inspections reveal damage to any of the areas, the necessary repairs are made. Communications are ongoing at all phases of the response to an earthquake. The District has a radio system to insure communications will be available during an emergency. The Emergency Response Plan also includes an analysis of the potential of an electrical power outage. The District depends on electricity to boost water to higher elevations via pumping stations. In an emergency involving a power outage, the District will utilize emergency generators to provide customers with a reliable source of water.

Appendix A Stage Criteria

$$\text{Basic Capacity} = \frac{\text{Monthly Demand}}{\text{Monthly Production Capacity}} \times 100 = \% \text{ of used production Ratio}$$

Stage	Criteria	Reduction
Stage 1	0-50%	Normal Efficient Use
Stage 2	51-60%	Voluntary 10% Reduction
Stage 3	61-70%	Mandatory 20% Reduction
Stage 4	71-85%	Mandatory 30% reduction
Stage 5	86+%	Mandatory 50% Reduction

Would move to a higher stage when the Basic Ratio:

- 1) Has exceeded the lower threshold for a stage for the third (3rd) consecutive month;
- 2) Exceeds the lower threshold for a stage by at least 8% for two consecutive months; or
- 3) Exceeds the lower threshold for a stage by at least 13% for one month.

- A. Three (3) months at 52%, 54%, and 52% would go to Stage 2 in the 4th month
- B. Two (2) months at 59% and 58% would go to Stage 2 in the 3rd month
- C. One (1) month at 63% would go to Stage 2 in the second month

Would move to a lower stage when the Basic Ratio:

- 1) Has been 5% or more below the threshold for the Stage for two consecutive months
- Example
- A. In Stage 2; Month 1 at 44%, Month 2 at 43%, go to Stage 1 in the 3rd month

Idyllwild Water District Appendix B WATER CONSERVATION POLICY Adopted September 19, 2018

TABLE OF CONTENTS

1. Findings and Declaration of Policy
2. General Provision
3. Penalties and Restitutions
4. Appeals and Process
5. Variance Conditions
6. Definitions of Terms

Section 1. Findings and Declaration of Policy

The Idyllwild Water District (District) finds and determines that because of the prevailing conditions in the State it is necessary and appropriate for the District to adopt, implement, and enforce a Water Conservation Policy to ensure sufficient water for human consumption, sanitation, and fire protection. The District further finds the waste or unreasonable use, or unreasonable method of use of water shall be prevented and that water conservation practices shall be encouraged at all times.

In times of drought or water supply cutbacks, provisions of this Policy may be modified in accordance with State of California Regulations, as well as Idyllwild Water District's Water Shortage Contingency Plan (WSC Plan). This Policy is in effect at all times and defers updates and implementation strategies, regarding water conditions and supplies to the WSC Plan for timely communications and media outreach when stage alerts are executed.

Section 2. General Provisions

In order to comply with requirements of state legislation and Best Management Practices, it shall be a violation of this Policy at any time to make, cause, or permit the use of water for residential, commercial, industrial, agricultural, institutional, or any other purpose in a manner constituting waste. Customers shall abide by all requirements outlined in the applicable Shortage Stage of the WSC Plan including, but not limited to the following requirements at all times:

1. Refrain from hosing down driveways and other hard surfaces, except for health or sanitary reasons;
2. Repair faucets, toilets, pipes and other potential sources of water leaks;
3. Irrigate landscape only between 6 p.m. and 9 a.m. This provision does not apply when:
 - a. Manually watering during the establishment period of a new landscape;
 - b. Supervised spot watering is done to address landscape issues;
 - c. Temperatures are predicted to fall below freezing;
 - d. Testing/repairing an irrigation system;
 - e. Using drip and point-to-point irrigation systems; and
 - f. A longer watering window is needed due to system constraints.
4. Adjust and operate all landscape irrigation

'I remember Ernie' stories needed

The Idyllwild Town Crier, in conjunction with the Idyllwild Area Historical Society, is asking for written stories from folk about their memories of Ernie Maxwell to be published in the Town Crier and, possibly, at an event at the Courtyard Gallery in the fall or winter. (The event was postponed from June.)

Email your stories and a photograph of yourself to becky@towncrier.com.

systems in a manner that will maximize irrigation efficiency and avoid over watering or watering of hardscape and the resulting runoff.

5. Prevent excessively irrigating any lawn or landscape area that would cause the sheeting of water to flow; eliminate water runoff from lawns or landscape areas into any drainage courses, streets, or streams.
6. Do not use decorative fountains unless they are equipped with a re-circulating system.
7. When installing plumbing fixtures, use low-flow devices, except for those that require high-flow fixtures for health and/or sanitary reasons.
8. Where possible, install pool and spa covers to minimize water loss due to evaporation during non-operating days.
9. Do not allow water to run while washing vehicles. Use a hose with an automatic shutoff valve to avoid runoff into drainage courses, streets or streams.
10. When installing new landscaping, refer to the Water Use Classification of Landscape Species (WUCOLS). Plant low-water California Friendly® Landscapes and/or the Idyllwild Garden Club list of local and drought tolerant plants suitable for the area. Non-functional turf areas are not recommended. Turf lined channels are only permitted when justified by environmental regulations.
11. Refrain from watering during rain, or high winds by turning off irrigation timer.

Section 3. Administrative Fines

All persons in violation of Section 2. General Provisions of this Policy or with excessive runoff that causes water to flow from property into any drainage courses, streets, or streams are subject to the following:

a. For a first violation, the District shall issue a written notice of fact of such violation to the customer. The customer shall then be allowed a period of 5 days following issuance of the written notice to correct the violation described therein before a second violation will be issued, and the customer will be provided a copy of this Section of the Water Shortage Contingency Plan.

b. For a second violation within the prior 12-month period, including but not limited to a failure to correct an initial violation within the time stated in the notice, the District shall issue a fine in the amount of \$50.00, which shall be added to the customer's water bill upon issuance of a third violation. The customer shall be allowed a period of 5 days following delivery of the written notice to correct the second violation before a third violation will be issued. The customer will be provided a copy of this Section of the Water Shortage Contingency Plan.

c. For a third violation in the prior 12-month period, the District shall issue a written notice of fact of such violation to the customer when a second violation has not been corrected within a period of 5 days following delivery of the second violation notice. A fine in the amount of \$100.00 shall be added to the customer's water bill upon issuance of a third violation. The customer shall be allowed 5 days following issuance of the written notice to correct the third violation before a fourth violation will be issued. The customer will be provided a copy of this Section of the Water Shortage Contingency Plan.

d. For a fourth violation in the prior 12-month period, the District shall issue a written notice of fact of such violation to the customer when a third violation has not been corrected within a period of 5 days following delivery of the third violation notice. A fine in the amount of \$250.00 shall be added to the customer's water bill upon issuance of a fourth violation. The customer shall be allowed 5 days following issuance of the written notice to correct the fourth violation before a fifth violation will be issued. The customer will be provided a copy of this Section of the Water Shortage Contingency Plan. In addition, the District may install a flow-restricting device at such meter with a one-inch orifice for services up to one and one-half inch size, and comparatively sized restrictors for larger services, on the service of the customer at the premises in which the violation occurred for a period of not less than 48 hours. The charge to the customer for installing a flow-restricting device shall be based on the size of the meter and actual cost of installation. The charge for installation and removal shall be as set forth in the District's rules. It may be reinstated for repeated violations.

e. For a fifth violation, the District shall issue a written notice of fact of such violation to the customer when the fourth violation has not been corrected within a period of 5 days following issuance of the fourth violation notice. A fine of \$500.00 shall be added to the customer's water bill following the issuance of the fifth violation notice until the violation is corrected. In addition, the District may install a flow-restricting device at such meter with a one-inch orifice for services up to one and one-half inch size, and comparatively sized restrictors for larger services, on the service of the customer at the premises in which the violation occurred for a period of not less than 48 hours. The charge to the customer for installing a flow-restricting device shall be based on the size of the meter and actual cost of installation. The charge for installation and removal shall be as set forth in the District's rules. It may be reinstated for repeated violations.

Violations that are not related to the malfunction of water conveying hardware or devices, but are related to actions taken by a water user including, but not limited to, (a) applying (e.g., hosing or spraying) potable water to outdoor landscapes in a manner that causes runoff that flows onto adjacent property, non-irrigated areas, private and public walkways, roadways, parking lots or structures; (b) using a hose to wash an automobile with potable water, except where the hose has a shut-off nozzle or device attached to it that causes it to immediately cease dispensing water when not in use; (c) applying potable water to driveways and sidewalks; and (d) using potable water in a fountain or other decorative water feature, except where the water is part of a recirculating system, are subject to the same enforcement procedures outlined above with the exception that the expected timeframe for correction of the violation is immediate, and a violation of such types (a), (b), (c) or (d) on a subsequent day may be considered a separate violation.

Customers shall pay all water bills and fines in accordance with the due dates on their water bills. An Appeals Process is offered to customers that disagree with fines outlined in this section of the Policy. If the appeal is upheld in favor of the customer, appropriate monies will be refunded. Details of the appeals process are included in Section 3 of this Policy. The District shall use the revenues derived from the implementation of this section of the Policy for water use efficiency programs.

Section 4. Appeals Process

Any customer may appeal the imposition of fines of this Policy, by filing a written request with the District Planning Department for an appeal hearing. The District must receive the request within 30 days of the date of the fine notice. A request for a hearing shall set forth, in detail, all

facts supporting the request.

The District shall, within 15 days of receiving a request for an appeal hearing provide written notice to the customer of the hearing date, time, and place. The hearing date shall not be more than 30 days from the mailing of such notice by certified mail, unless a later date is agreed to by the customer.

At the hearing, a District staff member will represent the District. The customer will have the opportunity to present information supporting his or her position concerning the required irrigation evaluation or penalty charges. After the hearing, the District staff shall deliver a written report to the General Manager setting forth findings of fact, conclusions, and a recommendation on whether to uphold, modify, or reverse the original fines. Upon receipt of the written report, the General Manager shall issue his decision within 15 calendar days of the hearing. The written decision of the General Manager shall be sent to the customer by certified mail. The General Manager's decision shall be final on the 16th day after it is mailed, unless a request for a hearing is filed with the Board of Directors no later than 5:00 p.m. on the 15th day following such mailing.

Any customer may appeal a decision made by the General Manager, prior to the date that the General Manager's order becomes final, by filing a written request for a hearing with the Board of Directors. The request for the Board of Directors' hearing shall set forth in detail all the issues in dispute and all facts supporting the request. No later than 30 days after receipt of the request for a hearing, the Board of Directors shall either set the matter for a hearing, or deny the request for the hearing. Whether to grant or deny a request for a hearing on an appeal to the General Manager's decision shall be within the sole discretion of the Board of Directors.

If required, a hearing shall be held by the Board of Directors within 30 days of the date the request for a hearing was granted, unless a later date is agreed to by the customer and the Board of Directors. The Board of Directors shall make a determination whether to uphold, modify, or reverse the General Manager's decision. The order of the Board of Directors shall be final upon its adoption. The written decision and order of the Board of Directors shall be sent to the customer by certified mail within 15 days after the close of the hearing.

If the matter is not heard within the required time, due to actions or inactions of the customer or the Board of Directors' decision to deny the request for the hearing, the General Manager's decision shall be final.

The customers of the District authorize the District to deliver and/or mail all Notices to the current address listed for each customer in the records of the District. Each customer of the District agrees that any and all Notices addressed to such addresses of the customer is sufficient Notice for all purposes. The District may, at its election, deliver all Notices to such address in lieu of mailing by certified mail.

Section 5. Variance Conditions

A variance may be issued by the District, in writing, to grant a temporary variance for water uses otherwise prohibited under this Policy if it is determined that failure to grant such variance would cause an emergency condition adversely affecting the health, sanitation, or fire protection for the public or the person requesting such variance, and under the following conditions:

1. Compliance with this Policy cannot be technically accomplished during the duration of a water supply shortage or other condition for which the Policy is in effect.
2. Alternative methods or technology used as part of District sanctioned trial or test study can be implemented which will achieve the same level of reduction in water use.
3. Doctor-approved health circumstances, illness or injury will be considered on a case-by-case basis.
4. No variances will be issued, beginning in Stage 4 of the WSC Plan, for filling swimming pools, establishing or expanding a landscape area, leaks not repaired within 48 hours, and existing outdoor water budgets.
5. During Shortage Stages 4 and 5, variances will be considered for health and safety issues only. A written variance may be accepted by the Planning Department, and may be denied in full or in part at the sole discretion of the District.

Section 6. Definitions of Terms

Appellant - means the customer appealing a decision of the District for relief from the requirements of this Policy.

Appeal Process - refers to a set of procedures allowing an appellant the opportunity to present facts and details, supporting his or her position concerning fines of this policy.

Best Management Practices - defines the best and most proven water conservation methods for urban water users in California.

Board of Directors - means the Board of Directors of the Idyllwild Water District.

California Friendly® Landscapes - refers to landscape that features low-water using plants, state-of-the-art irrigation and controllers, sustainable landscaping techniques/ maintenance plan.

Customer - means any person, firm, partnership, association, corporation, or local political entity using water obtained from the water system of Idyllwild Water District.

District - refers to Idyllwild Water District.

Excessive Runoff - over irrigation of landscaped areas, leaks, or any other type of action that would cause water to flow into any drainage courses, streets, or streams.

Non-Functional Turf Areas - (not recommended) a landscape turf area used for aesthetic purposes.

Variance Conditions - refers to a conflict requesting a temporary variation for water use.

Waste - means any unreasonable or non-beneficial use of water, or any unreasonable method of use of water, including, but not limited to, the specific uses prohibited and restricted by this policy as hereinafter set forth.

Water Use Classification of Landscape Species (WUCOLS) - is a guide to help landscape professionals identify irrigation water needs of landscape species. It can be used either for the selection of species or to assist in developing irrigation schedules. It is not intended to be used as a required or approved list by IWD for selection of plant.

In times of drought or water supply cutbacks, provisions of this Policy may be modified in accordance with the Idyllwild Water District's Water Shortage Contingency Plan, or action taken by the Board of Directors.

Idyllwild Water District Board Room
25945 Idyllwild Road
Idyllwild, CA
(951) 659-2143

Pub. TC: Nov. 29, 2018.

Appendix C Water Shortage Contingency Plan Drought Rates

Proposed Rates - Transition 50% Fixed to 60% Fixed Water Shortage Rate Schedule	Proposed				
	FY 2018/19	FY 2019/20	FY 2020/21	FY 2021/22	FY 2022/23
Stage 2 - 10% Conservation					
Uniform Potable Rate (Commercial Customers)	\$0.0829	\$0.0826	\$0.0820	\$0.0811	\$0.0799
Tiered Rate (SFR Customers)	Proposed				
Tier 1	450 cf	\$0.0200	\$0.0210	\$0.0220	\$0.0231
Tier 2	900 cf	\$0.1559	\$0.1539	\$0.1514	\$0.1482
Tier 3	900+ cf	\$0.2005	\$0.1976	\$0.1938	\$0.1893
Stage 3 - 20% Conservation					
Uniform Potable Rate (Commercial Customers)	\$0.0917	\$0.0912	\$0.0904	\$0.0894	\$0.0879
Tiered Rate (SFR Customers)	Proposed				
Tier 1	450 cf	\$0.0209	\$0.0219	\$0.0230	\$0.0241
Tier 2	900 cf	\$0.1930	\$0.1869	\$0.1826	\$0.1775
Tier 3	900+ cf	\$0.2606	\$0.2564	\$0.2512	\$0.2448
Stage 4 - 35% Conservation					
Uniform Potable Rate (Commercial Customers)	\$0.1096	\$0.1092	\$0.1081	\$0.1066	\$0.1047
Tiered Rate (SFR Customers)	Proposed

Tier 2	900 cf	\$0.2904	\$0.2857	\$0.2799	\$0.2727
Tier 3	900+ cf	\$0.4204	\$0.4129	\$0.4036	\$0.3923
Stage 5 - 50% Conservation					
Uniform Potable Rate (Commercial Customers)	\$0.1391	\$0.1379	\$0.1362	\$0.1341	\$0.1314
Tiered Rate (SFR Customers)	Proposed				
Tier 1	450 cf	\$0.0257	\$0.0270	\$0.0283	\$0.0298
Tier 2	900 cf	\$0.5107	\$0.5015	\$0.4900	\$0.4762
Tier 3	900+ cf	\$0.7805	\$0.7654	\$0.7468	\$0.7245

Farmers Insurance honors Mountain Center resident

Shaelynn O'Brien of Mountain Center received a car from Farmers Insurance recently. She was one of four veterans and active-duty service members honored Tuesday, Nov. 20, at the Farmers headquarters in Woodland Hills.

Farmers teamed up with Caliber Collision to restore the vehicles and provide reliable transportation to the recipients and their families as part of the National Auto Body Council's Recycled Rides program.

All four vehicles were restored by technicians at local-area Caliber Collision Centers who volunteered personal time to refurbish the vehicles. The Caliber team also engaged local businesses to donate gifts, toys and certificates to "stuff the trunk" with more surprises for the recipients and their families.

O'Brien was nominated by Support

The Enlisted Project, a nonprofit dedicated to providing support to military families in Southern California. Farmers Insurance and Caliber Collision reviewed the nominations, and final selections were made by each of the four Caliber locations that restored the vehicles for the four recipients. O'Brien was selected by the team at Caliber-Canoga Park, who restored the 2013 Kia Rio she will be receiving.

NABC's Recycled Rides™ program brings together collision repairers, insurers and others in the collision industry in an effort to make a difference and give refurbished vehicles to individuals and service organizations who would benefit from reliable transportation. The Recycled Rides™ program began in 2007 and since then, has donated more than 1,300 vehicles valued at \$17 million.

At the Farmers Insurance ceremony Nov. 20 were (from left) Brandon McLain, SVP for Southern California, Caliber Collision; Tim Felks, head of Property Claims for Farmers; Beneficiary David Leclerc, a current U.S. Navy sailor; Shaelynn O'Brien (of Mountain Center), U.S. Army veteran, and her daughter Raelynn; Ebony Wright, U.S. Navy veteran; Laura White, director of development for Support the Enlisted Project or STEP; Bill Garoutte, president and CEO of the National Auto Body Council; and Sean Harlan, director of operations for SF Valley & Central Coast for Caliber Collision.

about 30 to 40 gpm to the district's capacity, which would lower the BCR, if usage remains about the same.

The notices sent to ratepayers allowed them to submit a protest form to the board in advance of the public hearing. Hoagland said 835 forms would have to be returned in order to stop the approval

Support for caretakers

A series of classes for family members who care for older adults with Alzheimer's, stroke, Parkinson's and other chronic conditions is being offered for free through the Riverside County Office on Aging. Attendees will receive information on community resources, acquire skills to cope with changing demands and better understand how dementia affects personality and decision making.

The Care Pathways program begins in January throughout Riverside County.

It provides a series of weekly workshops designed to offer information and support to family caregivers who face challenges managing their caregiving responsibilities for a family member, 60 years of age or older. The classes are offered in both English and Spanish; some classes are offered in the evening for caregivers balancing work and eldercare.

To register, call 951-867-3800 or 800-510-2020. Home care can be arranged for the care recipient; request respite assistance at the time of registration.

Recall of four cake mixes

The U.S. Food and Drug Administration said four Duncan Hines cake mixes are being recalled due to the possibility of containing salmonella.

They are:

- Duncan Hines Classic White Cake 15.25 oz., UPC 644209307500, best if used by March 7, 8, 9, 10, 12 or 13, 2019 (on top of box).
- Duncan Hines Classic Yellow Cake 15.25 oz., UPC 644209307494, best if used by March 9, 10, 12 or 13, 2019 (on top of box).
- Duncan Hines Classic Butter Golden Cake, 15.25 oz., UPC 644209307593, best if used by March 7, 8 or 9 (on top of box).
- Duncan Hines Signature Confetti Cake, 15.25 oz., UPC 644209414550, best if used by March 12 or 13 (on top of box).

Return any of these to the store where they were purchased. Consumers with questions should call the Consumer Care team at 1-888-299-7646, open 9 a.m. to 5 p.m. EST, Monday to Friday or visit www.duncanhines.com.

Check your vehicle for recalls

The U.S. Department of Transportation's National Highway Traffic Safety Administration is reminding the driving public to check their vehicles for any open recalls on NHTSA.gov/recalls.

Over the last decade, NHTSA oversaw 7,878 recalls affecting more than 390 million vehicles and items of vehicle equipment.

Vehicles one to three at the time of recall average an 80-percent repair rate. Vehicles that one to five years old at the time of recall average a 76-percent repair rate.

Vehicles recalled at six to 10 years old see the repair rate drop to 56 percent, on average (while manufacturers mail recall notices to owners, the task of reaching current vehicle owners becomes more difficult when vehicles have changed hands, particularly if they've had multiple owners).

Visit NHTSA.gov/Recalls and enter your vehicle's 17-digit vehicle identification number. In seconds, you'll know if your vehicle is subject to a safety recall. Every recall is fixed for free. Recalls do not expire.

Get Alerted. Sign up for Recall Alerts. If your vehicle is included in a future safety recall, you'll receive an e-mail letting you know.

Anza council members sought

Riverside County 3rd District Supervisor Chuck Washington is seeking dedicated community members to apply for the Anza Valley Mountain Communities Municipal Advisory Council. The council serves as an advisory body to the Board of Supervisors and makes recommendations regarding issues such as public health, public works, welfare, safety and planning in the Anza Valley area.

Council members meet regularly at the Anza Community Hall and serve an unpaid term of four years. Those appointed to fill vacancies shall serve until the end of the term of the member(s) they replace.

Applicants must be at least age 18 and maintain a residence within the boundaries of Anza.

To apply, call 951-955-1030 or visit supervisorchuckwashington.com/maccouncils for an online application.

State hosts cannabis workshops

The California Department of Fish and Wildlife and State Water Resources Control Board are hosting free cannabis-permitting workshops in Palm Desert, Adelanto and Needles.

Workshops are open to cannabis cultivators, consultants and anyone interested in the topic.

The workshops include presentations from CDFW and SWRCB on requirements and processes of

obtaining proper permits for cannabis grows. Workshop attendees will have time to talk with agency staff about individual projects.

Representatives from the California Department of Food and Agriculture's CalCannabis Cultivation Licensing Division, and county permitting and planning departments also will be available to answer questions.

All workshops are from 10 a.m. to 3 p.m.:

- Tuesday, Dec. 4, Coachella Valley Association of Governments, 73-710 Fred Waring Drive, Suite 115, Palm Desert

- Wednesday, Dec. 5, Adelanto Stadium, 12000 Stadium Way, Adelanto, Calif.

- Thursday, Dec. 6, El Garces Room, 950 Front Street, Needles
For more information, visit www.wildlife.ca.gov/conservation/cannabis or www.waterboards.ca.gov/cannabis.

Local Red Cross seeks volunteers

The American Red Cross is seeking local volunteers. Meetings are about once a month.

Volunteers are needed to set up a shelter in Idyllwild during a disaster, be prepared for floods and manage disasters.

Especially now, with the increased risk of mud/rock slides, and flooding from the burn scar, there may be more of a need for shelter openings in the future.

For more information, contact Dennie Ohrazda at 574-370-8282 or dennieohrazda@gmail.com; Dick Goldberg at 310-941-1653 or dickmgoldberg@gmail.com; or Tracy Phillipi at 951-795-6093 or animalguy4u@hotmail.com.

Danielle McKnight: From Idyllwild to the sky

BY JP CRUMRINE
NEWS EDITOR

The Hemet High School graduating class of 2011 included 22 members from Idyllwild. In the few years since that bright, sunny and cool evening, most of these “Hillbillies” have left the Hill, if not permanently, at least temporarily.

As they have gradually broken from the chrysalis of teen-hood and become young adults, they have spread across the nation and beyond. Some have encountered troubles, some have discovered lives that weren’t foreseen, and some have achieved or are achieving their dreams.

One who has left the Hill, sailed the oceans and returned to Southern California, at least temporarily, is Danielle McKnight, Navy lieutenant junior grade.

McKnight is currently stationed in San Diego.

She is a helicopter pilot and training to fly the Navy’s Sikorsky SH-60/MH-60 Seahawk. Even in high school, McKnight was interested in flying. She was a member of the Air Force Junior ROTC then.

“I was a freshman or sophomore in high school when I decided I wanted to go into the military. My grandfather [James Kent, formerly of Pine Cove] was the main influence,” she wrote in an email. The Naval Academy training convinced her to pursue her dream of becoming a pilot.

“The summer between my junior and senior year, I was able to do a training the academy provided where we got our first 10 flight hours in a fixed-wing aircraft culminating in a solo flight. By the end of that training I knew that’s what I wanted to do,” she added.

After graduating from the U.S. Naval Academy in 2016, Ensign McKnight entered pre-flight training. “I chose pilot out of USNA because of how much I enjoyed flying.”

Her first assignment was the Naval Air Station in Pensacola, Florida. Next, she was assigned to the Naval Air Station in Corpus Christi, Texas, where she became

This July, Lt. Jr. Grade **Danielle McKnight** received her Naval Aviator's wings while stationed at the Naval Air Station in Milton, Florida. Pinning them on her is her grandfather, **James Kent**, a retired Marine captain. “Needless to say, it was one of proudest moments of my life,” he said. PHOTO COURTESY JAMES KENT

a pilot flying the T-6B.

After a year of training, she made her first solo flight last August 2017, in a T-6 Texan. From there, she was transferred to the Naval Station in Milton, Florida, to begin her helicopter pilot training. There she learned to fly the TH-57, the Navy’s trainer helicopter.

“I chose helicopters because of the diversity in their mission set and importance to the Navy’s operations,” she wrote.

“I know more than most people the danger involved in a MH-60R Navy helicopter. I worry about her all the time,” said her grandfather, who is a retired Marine captain. “I am also so very proud that she has chosen to serve her country as a Naval Officer and flyer. From the day she entered the Naval Academy she has been doing exactly what she wants to do — and she has had my support through every step of her career.”

With that experience, she was assigned to the San Diego Naval Air Station, where McKnight is a student at the fleet replacement squadron learning to fly the “big choppers.” The MH-60R Seahawk is a twin turboshaft

engine, multi-mission machine. By next summer, she expects “. . . to be transferred to Japan next summer.”

“The naval forces out there are always considered ‘forward deployed’ so I don’t really have a specific area where I will deploy,” she said about her future. “There are two MH-60R squadrons; one is assigned to an aircraft carrier and the other sends detachments to smaller ships like destroyers.”

Graduating from the Naval Academy, becoming a pilot of planes and helicopters, McKnight is experiencing a dream. She has no regrets and looks forward to her military career as much as she enjoyed her schooling.

“The Naval Academy was tough, but well worth the work. If I had to do it again, I would. I played ice hockey while I was at the academy and my time with that team was an ongoing highlight,” she said proudly.

Chess club is on Fridays

The Idyllwild Chess Club meets from 1 to 5 p.m. every Friday at the Idyllwild Library. Beginners are encouraged to come and learn the “royal game.” Bring a chess set if you have one.

Master potter at Mountain Pottery

Dr. Arthur Tobias, a master potter, will give another presentation at Mountain Pottery in December.

From 7 to 8 p.m. Monday Dec. 10, Tobias will present another “Artists on Art” film, “Toshiko Takaazu.” Snacks will be served and a discussion will follow.

The event is free and open to the public.

Holiday with Local Color

Idyllwild Library will host a late afternoon of holiday song and music with Idyllwild’s capella singing group, Local Color, a group of a dozen local women. The free event is from 5 to 6 p.m. Wednesday, Dec. 5, at the library.

Karaoke is back at the Legion

Karaoke night is returning to the American Legion but now also will include dancing, DJ music and music videos. The free event begins at 6 p.m. the first and third Fridays of the month.

New app for county landmarks

“Historic Riverside County” is now available in the Apple App Store and Google Play Store. In this free app, you can explore the historic landmarks in your own backyard. It explores more than 100 landmarks throughout Riverside County.

AAI’s CD Release Party

On Sept. 9, the Art Alliance of Idyllwild staged a live concert with 13 local musicians. This concert was recorded and then made into a CD.

AAI will host a CD Release Party at Idyology at 7 p.m. Thursday, Dec. 6. It also is an AAI Member Mingle and an Appreciation Event for Art Walk and Wine Tasting volunteers.

The cost for AAI members is \$5 and \$10 for guests and the general public. Included in the price is a buffet and one drink. Musicians and volunteers are treated to the buffet and two drinks.

Cole Withers will start the evening followed by a jam session with other musicians. “Call of the Wyld 2018” CDs will be available for sale at \$10. They make great stocking stuffers. The CDs also are available at the Courtyard Gallery.

For more information and to RSVP for the event, visit www.artinidyllwild.org.

Get ready for 'The Josh Thomas Show'

Budding comedy writer and late-night host next at Idy Talks

By MARSHALL SMITH
 STAFF REPORTER

Granted, Idyllwild Arts senior Josh Thomas is only 17. But he has had the same dream since he was 8, and piece by piece his dream is coming together. "I've just wanted to be a 'Saturday Night Live' cast member and a late-night television host," he said.

Granted, too, Josh is funny, quirky and charismatic, but then so are many who try to climb the show-business ladder. But there is something about Josh's determination, his fastidious planning, his note taking from shows he's attended, what he's learned from comics and late-night hosts he scrutinizes, and how he conceptualizes and executes the succeeding iterations of "The Josh Thomas Show," that make it seem likely he will ascend that ladder, with panache and humor to spare.

As a freshman at Idyllwild Arts, this La Jolla native presented the first edition of "The Josh Thomas Show" in the lobby of Bowman Theatre on the IA campus. Four people attended.

Undeterred, he kept at it in succeeding years. "Last year, I took a big risk with my show," he recounted. "I invited 150 people, booked Stephens Hall, put together a crew of 15, had a house band, an announcer, a warm-up guy, lighting and a screen projecting clips for the audience. I wore a dark blue suit with a salmon-colored tie. I envisioned myself as a 35-year-old on TV and thought, 'I'm just going to live it.'"

He had set up 100 chairs hoping that maybe 30 or 40 might come. He worried that no one would come. Instead, every seat got filled, there was standing-room only and many people were turned away at the door.

Check one on his ladder upward.

He took the show to San Diego, booked a studio and

invited a comedienne he thinks is sensational to be part of the show. Two days after getting the invite, Trailer Trash Tammy (aka Chelcie Lynn) called Josh and said she'd be there. Thinking again he'd be lucky to have a small audience, he said 400 attended the June 10 show. He thought many of them were likely Lynn's fans. After the show, Lynn said to Josh, "You did all this at 17? You're going to go far. You don't have 'it,' you have 'that,' which is a lot bigger. I can't wait to see what you will do. And remember, don't forget me."

Check two on his career ladder.

Josh has his ascent planned out. Next rung was to get into his first-choice, post-Idyllwild school. He very recently got his acceptance letter from Columbia College in Chicago, his first choice. Columbia is a liberal arts college specializing in arts and media disciplines. Josh intends to study comedy writing and continue to live "The Josh Thomas Show."

Check three on his ladder upward.

Future rungs include appearing with Second City in Chicago, becoming an SNL cast member and hosting a late-night television show. Stay tuned.

Josh's mission is to entertain. "I have this weird ability to adjust to the age of an individual or an audience — to make them laugh," he said. "They can be 3 or 103, and I can find a way."

After meeting his TV idol, Conan O'Brien, and sharing his own story, Josh recalled advice O'Brien gave him. "If you are nice to people and you do nice things, you'll go far," said O'Brien.

At Idy Talks, Josh will do what he does — entertain. He will try to make you smile. And what's wrong with that? It will be a clip from "The Josh Thomas Show." Check it out.

For a preview of this young entertainer's career, attend Idy Talks at 6 p.m. Thursday, Dec. 6, at the Town Gallery. There is no cost to attend this Idyllwild Arts series.

Marshall Smith can be reached at marshall@town-crier.com.

Answer: Snow much fun

PEOPLE FACT:

MANY PEOPLE CONSIDER THIS SNOWY DOWNHILL ACTIVITY THEIR FAVORITE WINTER SPORT.

ANSWER: SNOWBOARDING

THIS DAY IN... HISTORY

- 1818: ILLINOIS BECOMES THE 21ST U.S. STATE.
- 1967: DR. CHRISTIAAN BARNARD PERFORMS THE WORLD'S FIRST SUCCESSFUL HUMAN HEART TRANSPLANT.

Fishing program grant available

The California Department of Fish and Wildlife is accepting grant applications for fishing programs, classes and activities that educate and engage Hispanic communities. This grant program is part of CDFW's ongoing effort to increase fishing participation statewide.

To be eligible for funding, programs must be:

- Ethnically inclusive: While a majority of participating families will be Hispanic, the event will be open to families of all races/ethnicities.
- Family-focused: Program will encourage participation across multiple generations and genders.
- Metro-centric: Program will encourage focus in metro areas.
- Focused on Multiple Opportunities: Program will provide multiple opportunities for the same audience to participate in fishing.
- Program should promote good stewardship toward the state's aquatic resources.

The funds are made available from the George H.W. Bush Vamos A Pescar™ Education Fund. The fund supports the Recreational Boating & Fishing Foundation's Hispanic initiative, Vamos A Pescar.

Interested 501(c)(3) organizations should send via email to clark.blanchard@wildlife.ca.gov no later than 5 p.m. Friday, Dec. 7. Visit nrm.dfg.ca.gov/FileHandler.ashx?DocumentID=161940 for application.

Newsman Paul Young grew up in radio, became a TV news anchor

BY MARSHALL SMITH
STAFF REPORTER

Idyllwild resident Paul Young grew up in radio broadcasting and made the transition to television news in the 1950s. Born in Texas and a graduate of the University of Texas, Austin's radio broadcasting program, Young got his first jobs in radio in Texas — in Bay City, Harlingen and Corpus Christi.

"I began as an announcer, pitching products and doing voice overs" said Young. "I even did disc jockey work in the early years. Then I got into news, inspired by a woman reporter who was great in her job. She had the connections and knew how to get the story."

In Corpus Christi, the owner of radio station KEYS started a television station, KRIS TV, an NBC affiliate. It was there that Young made the transition to the new medium that would become his career home. "We did everything," said Young, "reporting, anchoring and producing. Newscasts were only 15 minutes long, so you had to write tight. There were only two reporters. We had early news at 6 p.m. and late news at 9. I was this young guy in this new medium. I was excited to be in this. It felt great."

In 1960, Young moved to KFDA in Amarillo as an on-air anchor and reporter. He was 30, married to his college sweetheart Fredricka and a young father. It was while at KFDA that Young had two of the most indelible experiences as a reporter.

The station got a tip that President Eisenhower and his wife Mamie would come through Amarillo by train returning to Washington from Palm Springs where Ike had been golfing. No other station had the scoop and Young was there as a reporter as the president spoke to the crowd from the platform on the train's last car.

"I was throwing questions out to the president. We were the only station there. And Freddie had brought the kids to see the president. We got the story. And I'll never forget the feeling of exhilaration of getting the story when no other reporters were there."

The other seminal event in his life as a reporter was when the station owner sent him and a cameraman to Oxford, Mississippi, to cover the tense situation when James Meredith enrolled at the University of Mississippi, the first man of color to do so. Federal troops had been dispatched by the Kennedy administration to ensure Meredith's safety.

"We had talked with the Texas Highway Patrol troopers prior to leaving Amarillo and they had contacted the Mississippi Highway Patrol so that we got right on campus with no trouble," Young remembered. "A reporter from New York did not get on campus. Security was very tight. At night, the crowds were growing, and the situation was very tense. There was tear gas and cars had been set on fire. Anything could have happened. One of the radio stations in Oxford was broadcasting 'Bring

your guns and come to Oxford.'"

Young and his cameraman knew to keep their cameras carefully under wraps, so the crowds could not see they were filming. "We did not have our cameras out," he recounted. "We knew better. Another reporter was filming the crowd's growing hostility. People grabbed his camera and threw it into the air while the crowd began rocking the reporter's station wagon with his wife in it. It was all very volatile. I was doing voice over and my lead was, 'There will be blood on the streets tonight.' The next morning, the campus looked like a war zone."

During the three days Young and his cameraman were in Oxford, federal troops stabilized the situation. "They had set up a stockade and made many arrests," Young remembered. "Crowds dispersed."

"We went back and interviewed Meredith some years later in his home town. He was very articulate and thoughtful," said Young, "but there was obvious tension in his neighborhood seeing a newsman there."

In 1963, Young moved to ABC affiliate WMAL in Washington, D.C. He was hired as a reporter and on-air presenter. "I was put on assignment anywhere in the city," he recalled. "It was exciting being a beat reporter. There were so many experiences meeting people and being away from the station, sort of on your own."

Young became weekend news anchor and news manager, managing the television news department.

While at WMAL, Young reported on the riots after the assassination of Martin Luther King. He also was assigned to cover the Hill, meeting and interviewing senators and representatives from states and districts in which WMAL had affiliate stations, congressional heavyweights such as Lyndon Johnson, Sam Rayburn and Strom Thurmond. "It was a time of congressional congeniality," said Young. "After a contentious session, people would gather in the Speaker's office for Jack Daniels. Elected officials worked together."

Young concluded his D.C. career working in media relations first for the federal government, at the U.S. Department of Transportation heading news media relations, handling all media requests, writing and putting out press releases and audio cuts. Later, he served in a similar capacity for Washington Gas Company in news media relations and marketing.

In 1995, Young retired to his 5-acre home with horses in Gainesville, Virginia. "We gardened and volunteered," he remembered. "I gardened more than we could eat. I went back to college at George Mason University auditing courses in which I was interested. I had a ball."

"We moved to Idyllwild in 2017 because all our kids were out West. Freddie and I have been married for 67 years. She raised our kids and had her own career. She had been a drama major at UT and became a product spokesperson at our Corpus Christi television station. She taught ballroom dancing to young people sixth grade through high school."

Paul Young, veteran newsman and television anchor, made the transition from radio to television broadcasting, and has covered one of the most interesting and contentious periods in American history.

PHOTO BY MARSHALL SMITH

Looking back over a long and distinguished career, Young reflected. "The days of Edward R. Murrow are over," he said. "Then we had better journalists, better researching, more thorough coverage of subjects." He noted that with 24-hour news cycles, the depth of coverage has slipped. Fact checking has eroded. News has become entertainment.

"I remember when I first got into radio and television, everything was live and fast-paced," he noted. "But we always tried to get the story right before it went on air. We did not sacrifice accuracy for speed."

Young in interview is a soft-spoken gentleman, with the gentility of his Southern roots. He is urbane and steeped in history. In listening to the story of his career, one is struck by the breadth of events he has covered, both in Texas and in the nation's capital during some of the most important moments in our country's history. He was there, and he got the stories.

Marshall Smith can be reached at marshall@towncrier.com.

BY JACK CLARK
CONTEST JUDGE

Four entries regarding last week's photo, all correct, from Rochelle Ainsworth, Laurie Cole, Dave Hunt and Kris Kirschbaum. All four spotted the scalloped chimney atop Victoria Square on North Circle Drive.

Mandy Johnson pulled Laurie's name from the hat this week, so she wins the prize. Please come to the Town Crier office to pick it up. Our contest prizes are supplied through the courtesy and generosity of Red Kettle restaurant and Higher Grounds coffee house.

The subject of this week's photo is made of interesting (I think) brickwork. What and where is it?

One entry per household. Contest deadline: Monday noon. Not a race — correct entries go into a hat for a drawing. Full contest rules and guidelines available at the Town Crier office. Email entries to jack@towncrier.com.

Help celebrate library's 100th

The Idyllwild Library is one of the oldest and most venerated institutions on the Hill and it is geared up to celebrate its 100th anniversary July 27, 2020.

Staff and volunteers are planning a series of fun, informative and memorable community events leading up to that historic date and there are at least 100 ways for you to be a part of this special occasion.

They would love to hear your recollections of the library's history, especially from the 1920s to the 1950s, including important contributors, programs and milestones. Tell them your library stories: Why is it so important to you, your family, and our community?

If you have one of the earliest Idyllwild Library cards issued and pictures of the library at former locations or of its old card catalog, they would love to add these items to their treasure trove.

They especially want to receive memorabilia from the earliest days forward. Email your library stories and historic tidbits to Shannon at Shannon.Ng@rivlib.net. Bring your donated memorabilia to Shannon at the library.

For more information, contact the library at 951-659-2300 or stop by for a visit.

Golf volunteers

Grandfathers For Golf needs adult volunteer instructors of all skill levels.

The program, which teaches kids how to play golf for free, has near-record numbers of kids signed up for instruction at Golden Era Golf Course in San Jacinto and Echo Hills Golf Course in Hemet.

Volunteers are needed to both teach and supervise the kids. Classes are held on Tuesday and Thursday afternoons.

To find out how to help, call Tony Viola at 909-754-4148.

HOROSCOPES
November 2018 — Week 5

March 21 – April 19
Your Arian penchant for impatience shows, as you consider passing a problem-prone project on to someone else. Best advice: Stay with it and work out those snarls yourself.

April 20 – May 20
Even patient Bovines can be frustrated when carefully made plans go awry. But crank up that "stick-to-it-ivity" you do so well, and you'll soon find that your schedule is back in sync.

May 21 – June 21
Your aspect favors using more resourceful means in dealing with a workplace situation. Some discreet checking around could help shed light on the root cause of the problem.

June 22 – July 22
You show an unusually strong streak of stubbornness in rejecting suggestions from friends and/or family members early in the week. But you become more receptive by the week's end.

July 23 – August 22
The Big Cat might find a gentler approach more effective when dealing with those who resist needed changes. Remember, the word "persuasion" starts with the sound "purr."

August 23 – September 22
A disappointing experience with someone you felt you could trust can be painful. But there just might be more to this situation than you're aware of. Press for an explanation.

September 23 – October 22
Changing your views about something you believe in isn't easy. But you might reconsider as the facts come in. Keep your mind open, even if you're uneasy about what you might learn.

October 23 – November 21
You might have to do some serious shifting of gears to get your project back on track. But cheer up. Your hard work starts to produce some positive results by the week's end.

November 22 – December 21
An unsettling mood at the start of the week soon lifts and gives way to a more positive attitude as you find fun and friendship beginning to dominate your aspect.

December 22 – January 19
A delay in firming up holiday plans could work to your advantage. Use this time to scout out possibilities that might be more in line with what those close to you would prefer.

January 20 – February 18
Some people might question some of the new friends you've welcomed into your life. But your ability to see beyond the obvious helps you recognize how special they are.

February 19 – March 20
Financial matters can be especially tricky this week. It's best to follow a conservative investment path for now, and wait for a more fortuitous time to take a bolder approach.

FOR ENTERTAINMENT PURPOSES ONLY

TYPE-2 DIABETES

! WARNING !

FOURNIER'S GANGRENE ATTENTION!

This is an important warning for Type 2 Diabetics taking Invokana, Farxiga and Jardiance.

Gangrene of the genitals has been associated with the use of SGLT2 Inhibitors.

CALL 24/7

 Jacob Teel, General Contractor

ATTENTION CONTRACTORS

California Business and Professions Code 7071.13 reads: "Any reference by a contractor in his advertising, soliciting, or other presentments to the public to any bond required to be filed pursuant to this chapter is a ground for the suspension of the license of such contractor."
 This is a contractor's responsibility, not a newspaper's, and we are not responsible for it. However, as a courtesy, we will remove references to a bond in contractors' advertising, if we notice it.

- Free pool, 6 p.m. American Legion Post 800.

CREATURE CORNER

By JANICE MURASKO

Last week in "Days of Our Nine Lives," the ARF cats were wondering who will be the new office cat and met the puppies. **Pepper:** Well, this is interesting.

Zeus: Do tell!

Pepper: The office cat is now a brand-new cat! Whatever happened to seniority?

New Sadie: You must be talking about me. My name is Sadie, and since you already have a Sadie, I'm the new Sadie! I'm in the office because I'm so, so friendly. Also, because I don't know all of you cats, I don't know that I'd be comfortable right now in the cattery.

Sadie: As the original Sadie, I welcome you. We'll need to get your photo to share with the humans.

New Sadie: Well, since I'm the office cat now, guess I should fill you in on the puppy adoptions. Hans and Elsa were adopted, and it looks as though Aladdin might be on Friday.

Olaf: I thought I was adopted, but Hans stole my forever family! But you know, I'm so darned cute and smart, I'll find mine soon. I already play fetch!

Zeus: I heard that Elsa went to a family

in Alaska.

Belle: She did! I hope they have sweaters for her.

Aladdin: And I need all of you to keep fingers crossed that my adoption works out.

Bernard: Ah-hem! What about me? Shouldn't I be introduced?

New Sadie: Oops! Of course. Everyone, this is Bernard. He is nearly 5 months old and lots of fun.

Bernard: That's right. I do bark when someone comes into the room, but if I'm on a lap, I'm perfectly silent. I just love curling up on a human's lap and offering love.

Olaf: Guess we have that in common, Bernard.

Sadie: Lots of love here at ARF. Let's hope that the humans find their way here to scoop us up forever!

Be sure to keep up with the animal antics of "Days of Our Nine Lives" each week. And please stop in to say hello to the entire adoptable cast at the ARF House, 26890 Hwy. 243 on Saturdays 10-4 and Sundays 10-2, or by appointment M-F by calling 951-659-1122.

Creature Corner is sponsored by Carole Herman & Sandi Mathers.

Golf

Jim Crandall, Palms to Pines Golf Association handicap chair, provided this report about the association's regular monthly tourney in November.

Idyllwild's Palms to Pines Golf Association held its November tourney on Friday, Nov. 16, at Menifee Lakes Country Club. It was a beautiful fall day with partly cloudy skies and comfortable temperatures, and the course was in good shape.

Competition was keen and players' scores were close. **Gary Brown** (course handicap 15) and **Norm Kyriss** (8) tied for first with net 74s. Third place was a two-man tie, too. **Pete Capparelli** (19) and **Lee Lanfried** (24) tied with net 75s, one stroke behind the winners. Then, fifth place was a three-way tie: **Paul Cozens** (12), **Pete Holzman** (14) and **Bob Wadlow** (14).

In the B flight, no ties occurred. This group is golfers with a handicap index of 24.4 or above as of Aug. 15. **Don DePalma** (38) shot a net 76 for first place; **Barry Zander** (37) was second with a 78 score. **Jerry Daquila** (26) shot 81 for third. **Tony Viola** (25) was fourth with an 85 final and **David Hiemenz** (34) rounded out the top five with a net 86.

The winners of the closest-to-the-pin contests on the four par 3s were Wadlow on hole no. 4; **Barry Wallace** on hole no. 7; Holzman on hole no. 12; and Daquila on hole no. 15.

Here are the 2018-19 point standings for the season that runs from August 2018 through July 2019:

Place	Golfer	Points
1	Lee Lanfried	13
2	Norm Kyriss	11
3	Bob Wadlow	10.83
4	Pete Capparelli	8.5
5	Barry Wallace	8
6	Pete Holzman	7.83
7	Gary Brown	5.5
8	Ken Garelick	4
9	Jim Crandall	3.5
10	Dennis Chavez	3
tied	Danny Crosser	3
tied	Scott Schroeder	3
13	Paul Cozens	2.33
14	Mike Feyder	1
tied	Mike Higginbotham	1
16	John King	0.5

Flight B Stats (Flight B comprises high handicappers who don't qualify to compete in the club championships):

Place	Golfer	Points
1	Jerry Daquila	21
2	David Hiemenz	16
3	Barry Zander	12.5
4	Don DePalma	12
5	Tony Viola	2.5

In regular season, points are awarded at each tournament as follows: first place, 6 points; second place, 4 points; third place, 3 points; fourth place, 2 points; fifth place, 1

Above, on behalf of Idyllwild's Palms to Pines Golf Association, member **Pete Capparelli** (center) gives trophies to the association's 2017-18 flight champions. On the left is B-Flight Club Champion **Jerry Daquila**. And on the right is A-Flight Club Champion **Bob Wadlow**, who will compete in the Southern California Golf Association Tournament of Club Champions in December. PHOTO BY JIM CRANDALL

Left, the Idyllwild Library held a family game day Saturday, providing cards, board games and a cozy feeling, along with popcorn and other refreshments for those who attended. This dad looks on with anticipation as his kids battle it out on a chess board. PHOTO BY JENNY KIRCHNER

point. Also, one-half point is awarded to everyone who participates.

A member has to compete in at least five regular-season tournaments to qualify for the playoffs.

The club is a member of the Southern California Golf Association and is sanctioned to establish SCGA handicaps for members.

If interested in joining the club or playing as a guest, contact Crandall at jim.crandall@verizon.net or 951-265-5732, or Capparelli at pete@capparelli.com or 951-452-5552.
