Let's get wildfire ready! Mountain communities come together for disaster preparedness

By MOUNTAIN COMMUNITIES FIRE SAFE COUNCIL CONTRIBUTED

The Mountain Communities Fire Safe Council (MCFSC) is hosting a community outreach and education event from 4:30 to 7:30 p.m. Saturday, Aug. 7 at the Mountain Resource Community Center, 25380 Franklin Dr., to deepen community understanding of natural disasters and inspire preparation and safety for these kinds of events. The event seeks to welcome and serve both existing community members as well as the measurable population of new homeowners who moved to the area in the past year.

The MCFSC provides fuels reduction, defensible space, outreach/education and home hardening assistance in the San Jacinto Mountain communities. The event will feature and promote several local organizations and agencies including the work of the Woodies; MCFSC's volunteer force that serves elderly and low-income homes in the community, U.S. Forest Service, Southern California Edison, Idyllwild Fire Protection District, Cal Fire, California Highway Patrol, Team Rubicon, Forestry and Fire Recruitment Program, Idyllwild Community Garden, Idyllwild Board of Realtors, Emergency Management Department, local tree contractors, Mountain Disaster Preparedness and Caltrans.

A food truck, cotton candy, popcorn and a family activity station will ensure a fun time. Attendees will learn about topics such as proper abatement strategies, fuels reduction, home hardening, Wildland Urban Interface and defensible space zones. Defensible space refers to managing vegetation and flammables around the home to maximize a home's chance of surviving wildfire. Defensible space, in combination with "home hardening" retrofits, are essential to residents living in areas at risk of wildfire. Current state regulations require 100 feet of "defensible space" around homes in very high fire hazard severity zones, yet many are lagging in compliance.

This event will also highlight the Listos toolkit trailer recently acquired through the California Fire Safe Council's Listos Trailers and Toolkit grant.

Questions about Mountain Communities Fire Safe Council can be directed to Caitlin Mathey, Mountain Communities Fire Safe Council administrative assistant, at caitlin@mcfscc.org or 951-659-6208.

FVWD director vacancy

By MELISSA DIAZ HERNANDEZ EDITOR

Fern Valley Water District's Director James Gates resigned in June, leaving a vacancy before the upcoming election but after the filing period. The district had the number of applications as seats up for election, so an election is not necessary.

The newspaper previously reported, "No firm answer has been received by the district from the County Registrar of Voters office on how to proceed with the upcoming election and the resignation of Gates. The district spoke with its legal counsel, who said he doesn't see a problem with an appointment to fill the seat and that the district may have to go through an appointment twice — one now and another again in December at the end of Gates' term." This has since been confirmed with the Registrar of Voters office.

The district wrote in its vacancy announcement the board intends to fill the vacancy during its next regular meeting scheduled for 9 a.m. Friday, Aug. 20 at the district's office, 55790 South Circle Dr., via teleconference and electronically.

Included in the announcement is, "Interested Fern Valley landowners should contact the office for an application to be submitted with their letter of interest and résumé to the district office no later than Aug. 17" to the office. Documents may also be submitted by mail to P.O. Box 3039 Idyllwild CA. 92549.

Masks, a CDC study, natural immunity and county data

By MELISSA DIAZ HERNANDEZ EDITOR

The Centers for Disease Control and Prevention (CDC) reinstated its mask recommendation even for those who received the COVID-19 shot writing that the agency, "Added a recommendation for fully vaccinated people to wear a mask in public indoor settings in areas of substantial or high transmission" Tuesday, July 27.

Riverside County Public Health released the following a day later: "Following the updated face mask guidance issued by the Centers of Disease Control and Prevention and the California Department of Public Health, and in light of the recent increase in local COVID-19 cases, Riverside County Public Health recommends residents follow the new state and federal guidance for face coverings.

The current state and federal masking guidance recommend that vaccinated individuals wear face masks in public indoor settings. The state still requires unvaccinated individuals to wear masks indoors.

"As the impact on the Delta variant increases transmissibility, Riverside County health officials continue to stress that getting vaccinated is the best protection against the virus and its variants."

The CDC defines vaccine as "A product that stimulates a person's immune system to produce immunity to a specific disease, protecting the person from that disease. Vaccines are usually administered through needle injections, but can also be administered by mouth or sprayed into the nose."

President Joe Biden tweeted May 13, "The rule is now simple: get vaccinated or wear a mask until you do. The choice is yours." The White House refused to release the number of "breakthrough" cases Friday, July 23 after White House Press Secretary Jen Psaki responded to a reporter, "Why do you need to have that information?" The reporter responded, "It's a case of transparency, in the interest of the public, knowing — having a better understanding of how breakthrough cases work here in the White House."

People who received the shot are expressing frustration by the new mask guidance. Some told the newspaper they got the shot to not have to wear a mask.

CDC study

In a report published by the CDC, almost three-quarters (74%) of those who contracted COVID-19 in a Massachusetts outbreak had received the full dose of the COVID-19 shot.

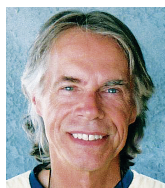

CNBC reported the following, "The new data, published in the U.S. agency's Morbidity and Mortality Weekly Report, also found that fully vaccinated people who get infected carry as much of the virus in their nose as unvaccinated people, and could spread it to other individuals.

"This finding is concerning and was a pivotal discovery leading to CDC's updated mask recommendation," CDC Director Dr. Rochelle Walensky said in a statement. "The masking recommendation was updated to ensure the vaccinated public would not unknowingly transmit virus to others, including their unvaccinated or immunocompromised loved ones."

Abrams’ estate still contested

By The Town Crier

David Gottfredson, investigative producer for CBS News 8, recently published a story (<https://www.cbs8.com/article/news/investigations/fiance-of-missing-woman-alleges-hostile-takeover-of-estate-near-idyllwild-lydia-dia-abrams-riverside-county-keith-harper/509-a42680e5-938a-4186-b636-7ae65007e3f3>) regarding Keith Harper, who claims to be the fiancé of missing person Lydia “Dia” Abrams, and his response to the documents filed by Abrams’ children over the estate. Harper is the current trustee of the estate.

Gottfredson reports, ““They have attempted a hostile takeover of their mother’s properties by financial strangulation and harassment,” wrote Keith Harper in a sworn declaration dated July 19.”

Abrams’ two adult children, Clinton and Crisara, are challenging the change to Abrams’ trust that happened just weeks before she went missing.

Six people, Luis Artieda, David O’Sullivan, Roy Prifogle, Melissa Lane, Lydia “Dia” Abrams and Diana Perez Gonzalez, remain missing.

Artieda “was last known to be in Idyllwild from June 26 to 29,” according to a flyer. “His car was found on La Mirada Road and Ramona Road near North Lyyken Trailhead in the city of Palm Springs.” His vehicle was towed July 8 by the Palm Springs Police Department (PSPD) after the vehicle was “initially noticed July 3.” Artieda is 5’10” and 155 pounds. He is 53 years old.

Neither the Riverside County Sheriff’s Department

(RCSD) nor PSPD took the lead on this case. RCSD responded to the newspaper that they were “currently reaching out to Palm Springs PD to try to see what is going on with this inquiry” and that they would be in touch. The newspaper has not received any further information.

O’Sullivan, who was last seen at the Idyllwild Inn April 7, 2017, was 25 years old when he went missing. The Fowler-O’Sullivan Foundation (FOF) website writes of O’Sullivan, “David [O’Sullivan] was thru-hiking NOBO on the Pacific Crest Trail [PCT] from Mexico to Canada. On April 6, 2017 he sent an email to his family from an Idyllwild library. O’Sullivan, who is from Ireland, intended to hike north into the San Jacinto Mountains the next day. He has not been seen since. There are several trails he could have taken to access the PCT from Idyllwild. We do not know which trail David took.”

Another search of the area where Prifogle went missing was conducted Sunday, April 18. “A search was completed on Sunday in the area where it was believed Roy [Prifogle] was last near,” the RCSD media information bureau wrote in an email response. “No evidence and or items were located during the search.” Before April 18, multiple searches had been conducted.

Prifogle was reported missing after going on a hike in the Pine Cove area Wednesday, March 4, 2020. He left home at about 1 p.m. and was last seen at the Pine Cove Market at 6:30 p.m. the same day. He was last seen wearing a red backpack and jeans.

Lane was last seen June 15, 2020. “I love my daughter so much and I’ve been praying for the other three families,” Lane’s mother Kathy Lamont said. “My heart tells me there is foul play somewhere.”

Lane’s cousin local Todd Gilliland was the last person to see her before she went missing. “I miss her a lot,” Gilliland said. “I wish we would get some kind of word about her. It’s nerve-racking. They [RCSD] have

interviewed me once when she was reported missing and haven’t talked to me since. I was the last one to see her. You would think they’d want to go over it with me again.”

According to Lamont in December, the RCSD last searched in early September with cadaver dogs on Black Mountain Trail, north of Pine Cove, where Lane was last seen. The search came back with nothing.

Abrams was 65 years old at the time she went missing. She is 5’ 5” tall, 130 pounds with blonde hair and blue eyes. She was last seen wearing a black and turquoise jacket, yellow shirt and blue jeans.

On June 6, 2020, Abrams was last seen by her self-proclaimed live-in boyfriend/fiancé Keith Harper at her ranch in Apple Canyon (between Mountain Center and Garner Valley). Since the initial search efforts more than a year ago, the RCSD has not provided new information or updates regarding her disappearance.

The RCSD has not provided any persons of interest or suspects regarding Abrams or any of the other missing people. Riverside Mountain Rescue Unit conducted searches on Abrams’ property before assigning the case to detectives.

Gonzalez, who is from the Hemet/San Jacinto area, was reported missing Dec. 11 and 27 years old at the time she went missing. According to family, Gonzalez visited the Idyllwild area regularly. She was last seen by her boyfriend.

Christy Rojas, Gonzalez’s sister, and her family are struggling with her sister missing. Rojas said, “We’ve been terribly sad. We think about her every day and have dreams of her, waiting for any sign or a miracle because we miss her and love her a lot. But the most important, her baby needs her. We can see the sadness in her eyes. Although she can’t speak, we know she misses her mom.” Gonzalez was pregnant when she went missing.

COVID

Continued from A1

Biden announced Thursday federal employees, regardless of location, will be required to get the COVID-19 shot or submit to weekly or twice-weekly tests. Also, employees who do not receive the COVID-19 shot will be required to wear a mask and physically distance. This also applies to on-site contractors. The administration is using this to push an increase in the number of people getting the COVID-19 shot. The administration also wants states and local governments to pay people \$100 (from the American Rescue Plan) for getting the shot. Biden wanted 70% of those eligible to receive the emergency use authorized shot by July 4. As of July 29, 49.8% of those of eligible age have received the full dose of the COVID-19 shot.

This follows the state of California’s announcement it is requiring public employees to get the shot or submit to weekly testing.

Natural immunity and the COVID-19 shot

Israel started giving the third booster of the COVID-19 shot. Sixty-one percent of its population received the first COVID-19 shot and 56% of its population received both doses as of July 4, according to Haaretz. Israel National News reported July 13, “Nearly 40% of new COVID patients were vaccinated — compared to just 1% who had been infected previously.”

“More than 7,700 new cases of the virus have been detected during the most recent wave starting in May, but just 72 of the confirmed cases were reported in peo-

ple who were known to have been infected previously — that is, less than 1% of the new cases.

“Roughly 40% of new cases — or more than 3,000 patients — involved people who had been infected despite being vaccinated.”

The National Institutes of Health (NIH) published “Lasting immunity found after recovery from COVID-19” (<https://www.nih.gov/news-events/nih-research-matters/lasting-immunity-found-after-recovery-covid-19>) Jan. 26: “The research was funded in part by NIH’s National Institute of Allergy and Infectious Diseases (NIAID) and National Cancer Institute (NCI).

“The researchers found durable immune responses in the majority of people studied. Antibodies against the spike protein of SARS-CoV-2, which the virus uses to get inside cells, were found in 98% of participants one month after symptom onset. As seen in previous studies, the number of antibodies ranged widely between individuals. But, promisingly, their levels remained fairly stable over time, declining only modestly at 6 to 8 months after infection.

“Virus-specific B cells increased over time. People had more memory B cells six months after symptom onset than at one month afterwards. Although the number of these cells appeared to reach a plateau after a few months, levels didn’t decline over the period studied.

“Levels of T cells for the virus also remained high after infection. Six months after symptom onset, 92% of participants had CD4+ T cells that recognized the virus. These cells help coordinate the immune response. About half the participants had CD8+ T cells, which kill cells that are infected by the virus.

“As with antibodies, the numbers of different immune cell types varied substantially between individuals. Neither gender nor differences in disease severity could account for this variability. However, 95% of the people had at least 3 out of 5 immune-system components that could recognize SARS-CoV-2 up to 8 months

Riverside County tax roll grows as economy rebounds from COVID

By RIVERSIDE COUNTY CONTRIBUTED

Strong demand for real estate led to nearly a 6% increase in assessed values in Riverside County going into 2021, according to Riverside County’s Assessor-County Clerk-Recorder.

Assessor-County Clerk-Recorder Peter Aldana announced today that the total taxable value of all property in Riverside County for the current year grew to \$338 billion, an \$18-billion increase. This year’s tax roll — a list of all taxable property, its owner, and its value as of Jan. 1 — will generate roughly \$3.3 billion for local government services.

“We all were concerned about the impact of COVID on assessed values,” Aldana said. “But the economy has rebounded quickly, and the strength and growth of the real estate market are reflections of that recovery. I also must give credit to the tremendous team effort that closed the assessment roll on time during this difficult year. Everyone put in long and hard hours, but the results for the county are worth it.”

The median home price in Riverside County grew to \$488,250 in December 2020, setting a record high for

any December, according to the California Association of Realtors.

Despite the increase in home prices, most property owners will not see an equal rise in property taxes on their next annual tax bill, which will be mailed in October. State law requires the assessor to enroll real property at the lesser of its current market value or the Prop 13 value — the market value as of the date the property was acquired or constructed, adjusted up to 2% annually for inflation. Eighty-four percent of Riverside County property is enrolled at its protected Prop 13 value.

Property owners may review their 2021 assessment roll value by visiting the assessor’s public access website at <https://ca-riverside-acr.publicaccessnow.com/Home.aspx> or calling 951-955-6200. Although the assessor works to enroll fair-market values, an owner might disagree with the valuation. Those owners may file a free decline-in-value application online. Applications are due by Nov. 1 and are available at the above-mentioned website.

Property owners also may request a formal hearing before the assessment appeals board. The deadline to file is Nov. 30. The application is available on the clerk of the board’s website at www.rivcocob.org/.

Life Tribute Buddy Dec. 29, 2008 to July 26, 2021

Our beautiful black Labrador Retriever Buddy crossed the Rainbow Bridge at home comforted by the De Antonio family and welcomed by those loved ones who predeceased him.

He was a typical Labrador who loved to swim and participated in Splash Dogs, Inc. dock diving, scoring his best ever distance of 13 feet in his second year of competition.

Buddy hosted annual K9 pool parties where working dogs specializing in arson/ accelerant detection, narcotics, therapy and career-change guide dogs for the blind shared the pool and toys. Civilian dogs from local fire department families joined the fun, often numbering more than a dozen in the pool. Everyone had a blast and savored Frosty Paws for dessert. Buddy was the best host!

One of his favorite activities was riding in the motor home with his K9 family and mom. He was an excellent traveler and served reliably as a guard while on the road. His massive, deep bark was unmistakable, but he never showed any temper, even to his bratty rescue pit bull sister Pinkie. Buddy enjoyed regular attendance at “dog church” in the basement of the Presbyterian church in Idyllwild with fellow Labrador attendee Charlee. He was well known in his neighborhood for his daily strolls, accompanying his mom on her scooter.

He was mischievous and could never resist stealing shoes or socks for a game of keep away. Cherry tomatoes were his favorite self-serve garden treat.

Left to cherish his memory are Susan De Antonio, Pinkie and Idyllwild friends. Our hearts and home feel empty while we adjust to his absence.

Child care providers may become state licensed at no cost

By RIVERSIDE COUNTY CONTRIBUTED

Child care providers who are not state-licensed may receive training and assistance with the licensing process at no cost through a program being offered through the Riverside County Office of Education (RCOE) and Consortium for Early Learning Services (CELS).

Support for Family, Friend and Neighbor (FFN) providers — or those who care for children in their own home — is being offered to encourage more providers to become licensed so they can receive various benefits available to them. In addition to assisting an FFN provider in becoming licensed at no cost to them, the program offers CPR/First Aid and other preventative health training, along with program and supplies support to help offset costs.

Riverside County Supervisor and First 5 Riverside Commissioner Chuck Washington emphasized the importance of increasing child care availability “to help families get back to work as we continue to recover from the pandemic.” He said, “Our county had a shortage of child care providers before COVID-19,” and added, “we are exploring all options to expand child care, starting with providers who have been caring for the children of friends, family and neighbors.” Washington, who represents families with children ages 0-5 on the county’s Children and Families Commission, said there is a strong partnership in place with the county and early child care network to help FFN providers become licensed and “strengthen the pipeline for more licensed, quality early care and education environments that prepare children for school and life.”

Family, Friend and Neighbor (FFN) child care providers may learn more about how to begin this process by going to <http://consortiumels.org/en/family-friend-neighbor/>, or by accessing the CELS site at <http://consortiumels.org/en/> or the Quality Start Riverside County website at: <https://qualitystartrc.org/>. They may also call CELS at 951-778-

5003 or RCOE at 951-826-6626. Information is available in both English and Spanish.

Riverside County Superintendent of Schools and First 5 Riverside Commissioner Dr. Edwin Gomez joined Supervisor Washington in emphasizing the importance of expanding child care for working families. He said, “The Riverside County Office of Education is dedicated to aligning our programs and resources to address the needs of our communities, families and providers—especially in a post-COVID environment and in anticipation of the start of another school year.”

Parents searching for available, licensed child care near their home or work can search the Riverside County Office of Education (RCOE) Resource & Referral database at: <https://www.rcoe.us/departments/early-learning-services/early-care-and-education/looking-for-child-care> or by calling 800-442-4927.

Response to Gisela Stearns’ letter

DEAR EDITOR:
I thank Ms. Stearns for exercising her American right to speak her opinion and I thank the Idyllwild Town Crier for serving as a platform for such discourse. I am writing to respectfully disagree with Ms. Stearns’ July 22 letter and provide scholarly background in hopes of lending her and other readers more clarity on these crucial issues.

“The idea to ‘defund the police’ is often misunderstood and misrepresented.”

The idea to “defund the police” is often misunderstood and misrepresented. In reality, this argument can take four general forms.

One: Total abolition of the police and replacement with community services that aim to nip crime in the bud by addressing the societal problems that cause it (the most uncommon view).

Two: Narrowing of police duties and creation of other teams to respond to situations in which police are not appropriate for, like mental health crises.

Three: Using the power of the purse to incentivize better police oversight and practices.

Four: Reducing the costs of police departments to lower government spending.

In sum, “defund the police” can mean anything from total abolition to less fiscal output with no overall social justice goal — but not the breakdown of law and order. (<https://www.stanfordlawreview.org/online/to-defund-the-police/>, <https://www.cbsnews.com/news/defund-the-police-meaning/>)

The “bad apples” argument has been widely discredited. Considering that instances like Derek Chauvin’s brutal murder of George Floyd are disturbingly common in police departments across the country, and in many cases, these officers are able to avoid meaningful accountability. It is clear the system itself is what is corrupt and thus needs fixing. (<https://www.brookings.edu/blog/how-we-rise/2020/05/30/bad-apples-come-from-rotten-trees-in-policing/>)

“Color blindness” is the ideology that “the best way to end discrimination is by treating individuals as equally as possible without regard to race, culture, or ethnicity.” While appealing on its face, this ideology plasters over the fact that non-white Americans face systemic racism every day and thus their experiences are very different. To make real progress, we must acknowledge the differences between us and address the issues that divide us along these lines. (<https://www.washingtonpost.com/nation/2018/10/05/white-parents-teach-their-children-be-colorblind-heres-why-thats-bad-everyone/>, <https://fitchburgstate.libguides.com/c.php?g=1046516&p=7616506>)

Research has shown that immigrants are a huge economic benefit to our country, not a drain. We ought to heed the time-honored words upon the Statue of Liberty, honoring our ideals while benefiting economically. Thus, we must address our broken immigration system — the very same one that made you wait two years for your visa and makes immigrants from less privileged countries wait even longer. (<https://www.cbpp.org/research/poverty-and-inequality/immigrants-contribute-greatly-to-us-economy-despite-administrations>).

Kindness

DEAR EDITOR:
Most of us know that we live in a town where people look out for each other. I’ve had many occasions where people have come to my aid in big and small ways, often people I’d never met.

The other day, after my car quit on me at the market, I started walking toward home in Pine Cove. Being in my late 70s and with a bad heart I “pooped out” somewhere past Jameson Drive and was lying in the shade. Shortly after, a car pulled over to see if I was OK. Then a second car and a third. Being in a befuddled state of mind, I couldn’t say how many people stopped altogether, some of them calling 911 for assistance.

I want to express my gratitude to all these people who stopped and cared about a complete stranger and wanted to help. And to the gracious couple who gave me, my dog and my groceries a ride back home and even carried my groceries down to my house. I regret that I don’t recall their last name so I can thank them personally.

Every day, I’m reminded one way or another of the basic goodness of most people and how it’s reflected in our little town.

The future of Idyllwild

DEAR EDITOR:
First of all, I am so glad Chief Mark LaMont responded to those allegations from a reader. I know of no other professional that puts in more hours per week than the fire chief. He is a seasoned leader who trains his personnel to handle situations whether he is in his office, out in the field, working mutual aid assignments or enjoying some well-deserved time off!

Now, to my main point ... The County of Riverside is currently revising the Short-Term Rental (STR) Ordinance 927. Our community simply cannot handle the overwhelming load STRs are putting on our limited mountain resources.

From fire, medical and law enforcement delayed response times to our dwindling water supply and exces-

“Our community simply cannot handle the overwhelming load STRs are putting on our limited mountain resources.”

sive wastewater load, we are nearing a breaking point! Our mountain community is in a unique situation. Apart from the blanket STR ordinance throughout the county that requires some unique solutions like limiting the total number to 10% of all residences in the area, having a code enforcement officer housed at the Mountain Resource Center to specifically enforce the STR ordinance and zoning violations and having STR owners live within a 7- to 10-mile radius are ideas. Or how about owners living on-site, so guest problems do not become neighborhood problems?

If you truly care about the future of our beautiful mountain community, I urge you to contact anyone and everyone at Riverside County Administration who is working on the revised STR ordinance before it is too late! Thank you so much for your time and consideration.

Seeking EMax award nominees

For the 11th consecutive year, the Idyllwild Town Crier is requesting nominations for the annual Ernie Maxwell Community Spirit Award. Bring your nomination to the Town Crier office at 54405 N. Circle Dr., mail it to P.O. Box 157, Idyllwild, CA 92549, or send by email to melissa@towncrier.com by 5 p.m. Thursday, Aug. 12.

The honor is given to an individual or group who represents EMax’s spirit of community and volunteerism. Prior awardees took actions that created a spark sufficient to bring others into the fray just as Maxwell did with his activities involving the environment.

The nomination information should provide the reason why the individual or group has been nominated. They should have demonstrated a tangible, perhaps physical, effect on the community. The Ernie Maxwell Scenic Trail is an example of accomplishment.

How long has your nominee been active in the community?

Provide a description of their vounteer contributions and accomplishments for the community.

And finally, can you show how these efforts have been adopted or expanded by the community?

The previous awardees were the Mountain Communities Fire Safe Council in 2011, Dawn Sonnier in 2012, Robert Priefer in 2013, Annamarie Padula in 2014, Wendy Read in 2015, Janice Murasko/Robert Hewitt in 2016, Jay Mulder in 2017, Dave and Loie Butterfield in 2018, Phyllis Mueller in 2019 and Stephanie Yost in 2020. A plaque in the Town Crier office lists the awardees’ names.

Later, you will have an opportunity to vote for the top three 2021 nominees. Group noting, e.g. collecting a list of signatures at a meeting, is not permitted. Votes must be on original, not copies of, ballots available in the Town Crier.

DREADED QUESTIONS

Q. What should I answer when my wife asks, “Does this dress make me look fat?” -Donald, Long Beach

A. Don’t even look. Just bellow “NO!” immediately, with great confidence that you’ve found the correct answer.

Q. What is my safe answer when my wife asks, “How do I look in this dress?” -Irwin, Palos Verdes Estates

A. This one requires more subtlety. It depends on whether you want dinner that night. But you can’t go wrong with “Spiffy!”

Forest gardening wizard Peter Kindfield at Idyllwild Community Garden

BY IDYLLWILD COMMUNITY GARDEN CONTRIBUTED

Renown Idyllwild forest garden expert Peter Kindfield will teach three classes over three Saturdays in August from 9 to 10 a.m. beginning this Saturday, Aug. 7. This is a not-to-be-missed opportunity to learn how to ‘Garden Like the Forest.’

Topics will include the composition of healthy soil, how forests recycle nutrients through interactive webs, composting basics, vermiculture (adding worms to the mix), brewing aerobic compost tea and much more.

Kindfield will teach several classes themed “Gardening Like A Forest” with emphasis on soil building. His classes will be held Aug. 7, 14 and 21.

Sign up at www.idyllwildgarden.org in the Calendar section for the classes. Classes are free but donations are most welcome. You’ll find more information about all programs on the website and on the Idyllwild Community Garden Facebook page.

The Community Garden and Education Center is located at the corner of Alderwood and North Circle Drive.

The Idyllwild Actors Theatre presents ‘SLOW FOOD’

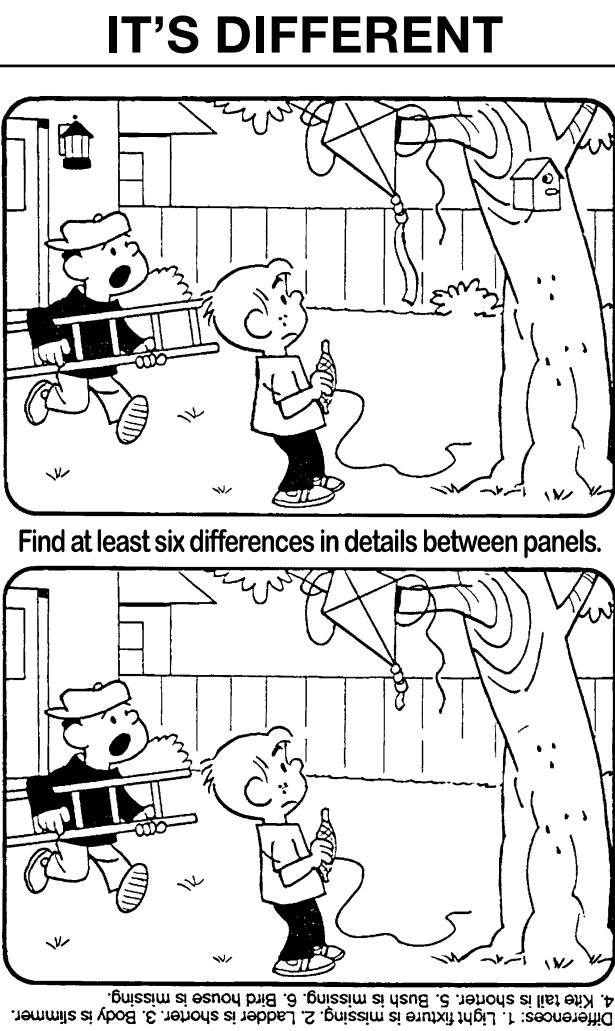

BY IDYLLWILD ACTORS THEATRE CONTRIBUTED

Idyllwild Actors Theatre is thrilled to be back in production after the long Covid hiatus. The upcoming play “SLOW FOOD,” a comedy by Wendy MacLeod, is coming to The Rustic Theatre and Entertainment Center, 54290 N. Circle Dr., Idyllwild, Aug. 6 and 7. Doors open at 7 p.m. and curtain is at 7:30 p.m. Refreshments are for sale before and after the show.

The Dramatists Play Service writes of the play: “A vacationing couple celebrates their anniversary at a Greek restaurant in Palm Springs — but will the marriage survive the service? As a needy waiter insinuates his way into their meal — and their lives — the couple examines their past and their future together. Playwright Wendy MacLeod brings us a tender comedy that delves deeply into what we hunger for.”

The play stars Jacob Teel, Jeri Greene and Jerry Prager and is directed by Suzanne Avalon.

General seating is \$20. Tickets can be purchased at the door or online at www.idyllwildactorstheatre.com.

Steele will play this week in the Barracuda

BY JACK CLARK PRO GOLF CORRESPONDENT

Brendan Steele will play this week in the \$3.5-million Barracuda Championship on the Old Greenwood Course at the Tahoe Mountain Club in Truckee, California. This tournament has raised \$4.6 million for charities since its inception in 1999.

The Barracuda uses Modified Stableford scoring: A player scores 8 points for each albatross (double eagle), 5 points for each eagle, 2 points for each birdie, 0 for a par, -1 for each bogey and -3 for each double bogey or worse. The highest score is the winner. The idea is to encourage aggressive play, since the reward for a good hole score is disproportionately greater than the converse penalty for a bad score on the hole.

Brendan has played the Barracuda, or its predecessor the Reno-Tahoe Open, seven times in his career — placing 4th in 2013, tied for 5th in 2016, and tied for 7th in 2015, while never having missed a cut.

The Idyllwild native now stands 90th in the FedExCup Points list and 99th on the Official World Golf Ranking.

Brendan will tee off this week on Thursday at 12:13 p.m. PDT and on Friday at 7:23 a.m. PDT, playing with Ryan Armour and Kevin Stadler both days.

The Barracuda will be telecast on the Golf Channel. You may follow Brendan’s scoring on the pgatour.com website or with the PGA Tour app on cellphone.

Some safety tips from Cal Fire:

1. Don’t mow or trim dry grass on windy days.
 2. Never pull your vehicle over in dry grass.
 3. Target shoot only in approved areas, use lead ammunition only, and never shoot at metal objects.
 4. Check and obey burn bans.
 5. Ensure campfires are allowed, and if so, be sure to extinguish them completely.
 6. Report any suspicious activities to prevent arson.
 7. If you see something — say something.

SBA announces opening of Paycheck Protection Program Direct Forgiveness Portal

BY U.S. BUSINESS ADMINISTRATION CONTRIBUTED

The U.S. Small Business Administration (SBA) is launching a streamlined application portal to allow borrowers with Paycheck Protection Program (PPP) loans \$150,000 or less through participating lenders to apply for forgiveness directly through the SBA.

“The SBA’s new streamlined application portal will simplify forgiveness for millions of our smallest businesses — including many sole proprietors — who used funds from our Paycheck Protection Program loans to survive the pandemic,” said Administrator Isabel Casillas Guzman. “The vast majority of businesses waiting for forgiveness have loans under \$150,000. These entrepreneurs are busy running their businesses and are challenged by an overly complicated forgiveness process. We need to deliver forgiveness more efficiently so they can get back to enlivening our Main Streets, sustaining our neighborhoods and fueling our nation’s economy.”

This new change will help rush relief to over 6.5 million smallest of small businesses which has been the Administrator’s priority since day one. The new forgiveness platform will begin accepting applications from borrowers on Aug. 4, 2021. Lenders are required to opt-in to this program through <https://directforgiveness.sba.gov>. In addition to the technology platform, the SBA is standing up a PPP customer service team to answer questions and directly assist borrowers with their forgiveness applications. Borrowers who need assistance or have questions should call 877-552-2692 Monday to Friday 8 a.m. to 8 p.m. EST.

“This initiative will allow PPP borrowers to put their concerns of achieving full forgiveness behind them and

focus on operating and growing their businesses again,” said Patrick Kelley, associate administrator for SBA’s Office of Capital Access. “We are pleased to be able to assist financial institutions across the U.S. in processing forgiveness applications for small-business owners.”

Paycheck Protection Program summary:

- Overall, the SBA and lenders have worked to originate over 11.7 million loans totaling nearly \$800 billion in relief to over 8.5 million small businesses. In 2021:
- SBA approved over 6.5 million loans totaling over \$275 billion
- The average loan size was about \$42,000 (compared to \$101,000 in 2020)
- 96% of loans went to businesses with fewer than 20 employees (compared to just 87% in 2020)
- 32% of loans went to businesses in low- to moderate-income communities (compared to just 24% in 2020)

Direct Forgiveness summary:

- Over 600 banks have opted into direct forgiveness, enabling over 2.17 million borrowers to apply through the portal (This represents 30% of loans \$150,000 or less that have not yet submitted for forgiveness.)

“As one of the leading PPP lenders in the nation, Customers Bank is proud to partner with SBA to deliver responsive digital loan forgiveness service to the small business borrowers,” said Sam Sidhu, president and CEO of the bank. “The streamlined and efficient SBA PPP loan forgiveness portal will help borrowers and lenders move forward with economic growth and job creation following the pandemic. We encourage other lenders to join Customers Bank and opt-in to the SBA portal.”

Resident deals with water issue trying to rebuild after losing home to the Cranston Fire

By MELISSA DIAZ HERNANDEZ
EDITOR

Alta Kavanaugh, who lost her home to the 2018 Cranston Fire, is finally rebuilding. A water issue held up construction. Kavanaugh attended the Idyllwild Water District (IWD) July Board of Directors meeting and asked the district to pay the bill for the construction of a culvert so construction to rebuild her house could begin. She also asked the district to investigate the source of an additional leak as she estimates hundreds of thousands of gallons has been lost between the three leaks. Two leaks were found and fixed.

The district had American Leak Detection come out to the property two years after the district was made aware of the issue.

"I first moved out to Deer Foot Lane in 1980," Kavanaugh told the board.

"In 2001, I took a job in the Bay area to further my pension. Teachers don't get a huge pension, but this job was worth it, but I always kept the Idyllwild house."

Kavanaugh's plan was to retire in Idyllwild. "Well, that was the plan until the Cranston Fire hit and took three homes total down to the foundation and then two other homes were virtually destroyed.

"Anyway, we just passed the three-year anniversary on Sunday and I marked that with coming here, coming to Idyllwild and looking at the beginnings of the foundation of my new home. That's how long it takes — three years to deal with insurance to get started on building."

Grants through Young Idyllwild, Inc and Art Alliance of Idyllwild assisted those who needed it. Kavanaugh thanked the community and locals who have played a role in the rebuilding of her house.

"I want to give the Idyllwild Water Board some appreciation and I can give you a little bit." Two leaks on Deer Foot were standing in the way of the excavator moving forward. She showed pictures of the amount of water that was coming down into her property, "which I was aware of. I think you were aware of. You were told a number of times that we believe we have a leak.

"It [Cranston Fire] almost took the whole town. So grateful that it didn't.

"My neighbor is at the lowest point of the bowl. And my house, my property is a little bit higher up ... Anyway, you hired the American Leak Detectors to come out. They located the leak. Fixed it — fixed two of them as a matter of fact. And the one on my neighbor's property, it is still running to the tune of about ¾ of a gallon per minute. I saw it today. I couldn't believe it — the amount of water that's coming out of there — fresh, clean water. It took too long. It took about two years for the leaks on my property to get repaired. That's too long to hire a company to come up and find the leaks."

Nothing was found until American Leak Detection came out. "We are glad. We are all glad that they did. It was two years of a lot of persistence, and worst of all, hundreds of thousands of gallons of water ran off."

She explained that come spring after the Feb. 14, 2019 storm that wiped out the roads to Idyllwild, her property still had a lot of moisture. She explained that in the 40 years she has had her home, her property has been very dry.

"None of us have a crystal ball. We don't know what's underneath the ground. Hundreds of thousands of gallons of water has been wasted and now two of the leaks have been stopped. That's excellent. The chronology was that after that winter, I got a call from my neighbor and she said, 'It's drying up over here.' I want to get started with construction and hire Garrett [Garrett Woods of GNW Construction, who was also present at the meeting]. He's building both of our houses, which is quite wonderful. Can't say enough good things about them. They've been involved in the water because they couldn't build. They couldn't build." Water just started coming once they started excavating. "Garrett found where that water was coming from. He put in drains on the neighbor's lot."

She received a phone call from her neighbor asking if she ever had water on her property May or June and Kavanaugh said no. The neighbor said they had standing water. That was two years ago. Kavanaugh mentioned huge bins that were filled with concrete on the street and the fire trucks all staged on Deer Foot Lane during the fire and the weight possibly compromising the pipes. She showed the board photos of the water streams going through her property.

"This was the first indication there was a big problem that would stop construction." She said the estimation of water was about 10,000 gallons a month on her neighbor's property and

then about 5,000 gallons on her property.

"I'm hoping we will have some commitment to infrastructure in our community with our water and I know Deer Foot is not high on the list for those pipes being replaced. My house was built in 1958, so I guess that's not old enough compared to some of the places up here. But if the pipes are compromised, you don't know. My neighbor hired soil engineers. She hired a local environmental geologist. She spent a lot of money trying to figure out what's going on here? What do we do?"

The geologist said a spring was not likely. It was mentioned it could be affluence that comes down from other houses. Kavanaugh told the board, he also said a leak is the most likely, but he can't stake his reputation on saying that's what it is. We don't know until those pipes are properly looked at. That was his educated guess. That it was a leak.

"When Garrett called me and said we have water on the lot, my heart sank."

"Mine did, too," Woods said.

He sent her photos of what the property looked like. They trenched the property and as they dug down, there was more and more water. They ended up placing a culvert on the property in March. The culvert cost \$2,700 to install. It diverted the water. She said American Leak Detection was there looking at the site a week later.

After Kavanaugh presented her story, General Manager Leo Havener responded.

"The only thing we know is it is not coming out of the pipe on Deer Foot," Havener said. "Where it's coming from, we don't know. We know that the leaks on Deer Foot, we did fix." Kavanaugh responded, "Two of them. Three of them since 2015." Havener agreed.

Havener later said, "We found what we found and took care of that and then had American Leak Detection come out because we could not find the leak. They found it and they fixed it. But that one that's running right now, we don't know where that's coming from. The only thing we know is that it's not coming out of our pipes."

According to Havener, American Leak Detection told the district the leak was not coming from a district pipe. "I am happy we checked that area," Havener said. Kavanaugh asked to have leaks included in the monthly report. She also said she did not know American Leak Detection was coming and it would have saved the cost of installing the culvert.

Havener said, "You call them [American Leak Detection] and they will let you know sometime in the future we will be there tomorrow and that's basically how that works."

The newspaper contacted American Leak Detection to find out how appointments work. The company said you make an appointment and there is a window of arrival on the appointment day.

Kavanaugh said that Havener approached her after the meeting and said he would be in touch. She has yet to hear from him.

The water running through Alta Kavanaugh's property before the water was diverted and leaks were fixed.

after infection.

"Several months ago, our studies showed that natural infection induced a strong response, and this study now shows that the responses last," Dr. Daniela Weiskopf says. "We are hopeful that a similar pattern of responses lasting over time will also emerge for the vaccine-induced responses."

Reuters reported July 13 (<https://www.reuters.com/business/healthcare-pharmaceuticals/us-health-official-says-covid-19-boosters-could-risk-more-serious-side-effects-2021-07-13/>), "The official said the second dose for two-shot COVID-19 vaccine regimens was associated with higher rates of side effects, suggesting a third dose could potentially come with even greater risks.

"We're keenly interested in knowing whether or not a third dose may be associated with any higher risk of adverse reactions, particularly some of those more severe — although very rare — side effects," said Jay Butler, deputy director at the U.S. Centers for Disease Control and Prevention, during a media briefing."

Riverside County data

The area of Idyllwild-Pine Cove has a total of 120 reported COVID-19 cases since the outbreak and two deaths reported, according to the Riverside University Health System - Public Health website. One hundred and sixteen of the 120 people have recovered.

As of Aug. 3, Riverside County had 309,217 confirmed COVID-19 cases, 4,667 deaths related to COVID-19 and 300,387 people had recovered. Two hundred and eighty-eight individuals were being hospitalized, and of those, 73 were in the ICU. The current case rate per 100,000 is 16.9 and 8.9% positivity. As of Aug. 2, 49.9% of the county population received the full dose of the COVID-19 shot. County Public Health outlines variants and the number in Riverside County on its website: Alpha (149), Beta (0), Gamma (11) and Delta (26). The newspaper still has not received a response to its inquiry regarding how the tests differentiate from each other.

As of July 27, Riverside County had 305,589 confirmed COVID-19 cases, 4,658 deaths related to COVID-19 and 298,029 people had recovered. One hundred and ninety individuals were being hospitalized, and of those, 47 were in the ICU. As of July 26, 49.1% of the county population received the full dose of the COVID-19 shot.

As of July 14, Riverside County had 302,069 confirmed COVID-19 cases, 4,647 deaths related to COVID-19 and 295,921 people had recovered. Ninety-four individuals were being hospitalized, and of those, 14 were in the ICU. As of July 19, 48.4% of the county population received the full dose of the COVID-19 shot.

For questions about Public Notices call the Town Crier (951) 659-2145 or Email: mandy@towncrier.com

Every day throughout the United States, newspapers publish thousands of public notices about events, conditions or actions that affect countless individuals, families, neighborhoods and businesses. Public notices cover many topics, including business matters, liquor licensing, public auctions and sales, estates, zoning, public meetings, bids to sell goods and services to the government, local government finances and state and local elections. Public notice is a fundamental component of our system of representative democracy, which depends upon the participation of educated, responsible citizens.

Visitors ARE joining us!

By JACK CLARK
CO-PUBLISHER

The Town Crier has three Members in Hawaii, one in Maine, and many more in states between. About 400 newspapers are mailed to off-the-Hill destinations each week. As a Town Crier Member, your newspaper will be mailed to you directly.

If you have an Idyllwild or Mountain Center mailbox, you get your TCs on Wednesdays, unless Monday is a holiday. If you live off the Hill, you are part of our extended Hill community, and your Town Crier will leave the Idyllwild Post Office for you on Wednesdays, also.

A really super Membership benefit is a six-month discount card applicable toward two meals

per day at the Red Kettle restaurant here in downtown Idyllwild. Town Crier Members also receive a nice-looking Membership window decal for your home or auto.

So please join us and become a member of our nationwide, extended-Hill community. You'll be helping keep a real community newspaper serving us all. Thank you!

A look at the remaining bands

By ANN SMITH
REPORTER

After a year off due to COVID-19, the Idyllwild Summer Concert Series is back on. Here is a look at the remaining bands. A few have performed for the town before.

Aug. 5: Darryl Reed's Creedence Clearwater Review

Back in 2016, Reed was interviewed by the Daily Republic where he is quoted with saying, "SouthBound and Company is the mother company if you will, and Born on the Bayou is our Creedence Tribute, but we have a Buddy Holly Review, and we do a Lynyrd Skynyrd tribute as well," Reed said. "You can't always get work with just one band. Once we did the Creedence tribute, the chemistry worked very well and audiences really enjoyed it."

Aug. 6: U.S. Marine Corps Band

The U.S. Marine Corps Band out of Camp Pendleton will be performing in the beloved Idyllwild Summer

Concert Series. According to Chief Warrant Officer Andres Navarro, "We are very excited about coming to Idyllwild. The last time we played in Idyllwild, two years ago, we had a completely different ensemble." They will be playing multiple genres including patriotic music, of course. There will be approximately 12 ensemble members. Navarro states this is a completely new ensemble with new players. According to the website, the band is a "contemporary music ensemble consisting of vocalists, keyboards, guitars, electric bass, drums and instrumentalists."

Aug. 12: Ken's Big Band Staff

Do you remember the last time Ken's Big Band Staff performed? Ken Dahleen, creator and producer of the Idyllwild Summer Concert Series, will once again lead his popular Big Band Staff into a night of big band music. This genre is written on the hearts of many, its popularity reaching new heights during the World War II era. The newspaper reached out to Dahleen to find out what new and exciting renditions the band would be bringing to the crowd. As luck would have it, he was lit-

erally sitting on top of a pole preparing the grounds for the concert! We fully expect those finger snapping, put a smile on your face tunes we've come to love from the band. Put on your dancing shoes!

Aug. 19: Mike Hammon's Grateful Dead Tribute

Who could forget The Grateful Dead band? They've had a massive impact on music over the last how many years? According to the Facebook page, The Ghost Notes Band offers "improvisational rock n' roll & Americana music inspired by The Grateful Dead." They must be awfully busy as we weren't able to check with their fearless leader to see what new renditions they'd be bringing to our hungry audience.

Aug. 26: The Blue Breeze Motown Band

Harold Wherry of The Blue Breeze Band told the newspaper, "Now that we're kind of post-COVID, we've been starting to perform again. We've had a couple of weddings and some corporate events. Things are moving along. We are blessed!" He said everyone in the band is healthy and happy and very happy to be back performing again adding, "We want to get the crowd movin' and groovin'!" They'll be adding some new selections to the repertoire.

The recent elevation of Dr. Jeanette Louise Yaryan, chair of Idyllwild Arts Academy's (IAA) music department for two years, to assistant head of school has made room for Head of School Marianne Kent-Stoll to award a promotion to Heather Netz to music department chair.

While Netz's previous positions at IAA, as coordinator of music partnerships since 2019 and before that as orchestra manager, have prepared her to take over the chair's administrative and leadership duties, her musical credentials were established long ago. She is a violinist, having earned both her bachelor's (1999) and master's (2003) degrees in music from the prestigious Eastman School of Music in Rochester, New York. She pursued further graduate studies at the former Royal Scottish Academy of Music and Drama, now the Royal Conservatoire of Scotland.

She especially loves early music and has led the academy's baroque ensemble. Yet she has also expressed her love of the entire classical tradition by teaching music history. In addition, she has taught senior seminar, which, she explains "prepares our music majors for the practical aspects of a music career: informing them about the wide range of career possibilities, teaching them about marketing themselves and about making connections."

Netz taught for eight years at Central Washington University, an hour and a half south of Wenatchee, the small city where she had gone to high school on the Columbia River in north-central Washington. Idyllwild has

been home to her, her husband and three children for nearly a decade.

She says the academy music department's leadership during her time in Idyllwild has built a department that she feels "absolutely fortunate to work with." She adds that "As chair, I intend to support and move forward with the great things the department is already doing — in particular, they've started to create a major in music technology."

The music department currently offers majors in classical music, jazz, songwriting and voice. But the development of a full curriculum in music technology is justified by industry demand for this skillset. With a music technology major, Netz believes, IAA will do an even better job of teaching the breadth of skills needed for a modern musical career.

"We're also looking at the possibility of awarding some dual distinctions." She goes on to say, "Students especially interested in becoming music teachers will be much in demand if they can play and therefore teach at a high level both violin and viola or both clarinet and oboe, for example."

She is thrilled about the launch, planned for this October, of a multigenerational community strings program.

"I'm prepared to teach violin, viola and cello myself. But the students in the academy's classical program are great kids, so I know that some of them will love the idea of joining me in teaching and playing with people from the town of all ages and all skill levels."

Netz's smile shows that her own love of the idea is sincere.

"It does beautiful things for a community when you can get that kind of broad range of people to make music together."

Welcome back

By ASSOCIATES OF THE IDYLLWILD ARTS FOUNDATION

Between the early afternoon rain and the night's downpour Sunday, July 25, the Associates of the Idyllwild Arts Foundation hosted its annual meeting. This year with the "Welcome Back" theme, the organization welcomed nearly 90 members and guests to begin the new year.

Appetizers and beverages were served while ScAtLiSh played soft rock including the song "Welcome Back." A barbecue dinner was served as members elected new board members and the officers for the next fiscal year and updated the bylaws.

2022 officers

Michael Slocum, president
Patrick Reitz, vice president
Terry Casella, vice president, finance
Barbara Kinoshita, vice president, membership
Linda Anderson, corresponding secretary
Lee Van Slyke, recording secretary

The Associates were pleased to make a \$10,000 gift to the Scholarship Fund of the Idyllwild Arts Foundation.

ATTENTION CONTRACTORS

California Business and Professions Code 7071.13 reads: "Any reference by a contractor in his advertising, soliciting, or other presentments to the public to any bond required to be filed pursuant to this chapter is a ground for the suspension of the license of such contractor."

This is a contractor's responsibility, not a newspaper's, and we are not responsible for it. However, as a courtesy, we will remove references to a bond in contractors' advertising, if we notice it.

HOROSCOPES

August 2021 — Week 1

March 21 – April 19
You still might have to deal with some lingering confusion that marked a recent workplace situation. But for the most part, you should now be well on your way to your next project.

April 20 – May 20
A new commitment might demand more time than you'd expected to have to give it. But rely on that special Bovine gift for patience, and stick with it. You'll be glad you did.

May 21 – June 21
You're earning the admiration of a lot of people who like the way you handle yourself when your views are on the line. Even one or two of your detractors are being won over.

June 22 – July 22
Taking your responsibilities seriously is what you do. But ease up on the pressure gauge and make time for much needed R & R. Start by making this weekend a "just for fun" time zone.

July 23 – August 22
Some recently uncovered information might make a change of plans inevitable. If so, deal with it as quickly as possible, and then find out what went wrong and why. What you learn might surprise you.

August 23 – September 22
Aspects favor moving carefully and deliberately when making any significant changes. Could be there are more facts you need to know, which you might overlook if you rush things.

September 23 – October 22
A problem neighbor might be looking to goad you into an action you don't want to take. Ask someone you both respect if he or she would act as an impartial arbitrator for both of you.

October 23 – November 21
A recent workplace accomplishment hasn't been overlooked by those who watch these things. Meanwhile, start making travel plans for that much-too-long-deferred trip with someone special.

November 22 – December 21
Those money matters continue to move in your favor. Now would be a good time to start putting some money back into the house, both for esthetic as well as economic reasons.

December 22 – January 19
A changing workplace environment can create job pressures. But, once again, follow the example of your birth sign and take things a step at a time, like the sure-footed Goat you are.

January 20 – February 18
Cheer up. You could soon have the funds you need for your worthy project. Your generous gifts of time and effort are well known, and someone might decide it's time to join with you.

February 19 – March 20
Your inner scam-catcher is right on target, and you're absolutely right to reject that too-good-to-be-true offer. Meanwhile, something positive should be making its way to you.

Lemon lilies,
butterflies
and acorns

BY MELISSA DIAZ HERNANDEZ
EDITOR

Steve Perez, Idyllwild Nature Center ranger, confirmed last week the Lemon Lily Restoration Day will not be occurring this year.
Butterfly Daze also will not be happening this year.
Some good news is that Trail of the Acorn is scheduled from 10 a.m. to 3 p.m. Saturday, Oct. 30.

CREATURE CORNER

BY JANICE MURASKO

Last week in "Days of Our Nine Lives," the ARF cats talked about the new ARF dog Oliver and adoption of the remaining kittens.
Fern: Again, it is rather quiet in here.
Stevie: So, it is, but I'm not surprised because it is just the adult cats left.
Fern: Although I am super playful, almost like a kitten!
Rosemary: As am I.
Pepper: Did you hear about the dog, Oliver?
Stevie: No. What is it?
Pepper: First of all, he has gained 5 pounds but still has a bit more to go.
Fern: That's great news!
Pepper: But wait! The rest of the news is Oliver has found his forever home.
Rosemary: Now, that is great news.
Pepper: And he has a playmate, a Chihuahua, and they get along beautifully.
Whiskers: Such a great ending for the little dog who previously lived on the streets.
Fern: I'm so happy for him but I'll miss the little guy.
Pepper: Don't worry. He is living here on the Hill, so we just might see him.
Stevie: Fabulous news!
Whiskers: Now it is time to get serious about finding forever homes for us cats.
Fern: No kidding! I'm ready for a playful home or a home that needs some entertainment.
Pepper: That's funny but true. You are very entertaining.
Fern: I cannot help it. It's just the way I am.
Rosemary: And any home that needs love and cuddling, I'm the cat for the job.
Stevie: Me too!
Whiskers: We just need humans to stop by and meet us. We are very special.

Be sure to keep up with the animal antics of "Days of our Nine Lives" each week. And please stop in to say hello to the entire adoptable cast at the ARF House, 26890 Highway 243. ARF is open Saturdays 10 a.m.-3 p.m., Sundays 10 a.m.-2 p.m., and during the week by appointment. Please call 951-659-1122.
